Total Price:

\$ _____

This Request for Quote (RFQ) is being issued for the above software components at the Office of Indian Affairs Information Technology at 12220 Sunrise Valley Drive, Reston, VA 20191.

REQUEST FOR QUOTE INSTRUCTIONS

The contractor shall comply with the following instructions for preparing the Request for Quote (RFQ). Failure to comply with the terms and conditions stated herein may be interpreted by the Government as a non-responsive quote and result being removed from further consideration for award.

Quoters shall submit unit pricing in the RFQ pricing schedule for each CLIN and Total Pricing for each line item.

BIA anticipates award of a fixed price task order NLT September 17, 2012.

Each quote shall include a statement asserting the vendor's full acceptance of the terms and conditions contained in the RFQ as well as a detailed description of conditional assumptions, if any, taken respect to any part of this RFQ. Any conditional assumption must contain sufficient amplification and justification to permit evaluation. All benefits to the Government shall be fully explained for each conditional assumption made. Such conditional assumptions will not themselves, automatically cause a quote to be termed unacceptable. A large number of conditions or one or more significant conditions not providing any obvious benefit to the Government may result, however, in rejection of your quote as unacceptable. The vendor shall highlight exceptions in the margin of the quote where they appear in text.

EVALUATION CRITERIA

Task Order will be awarded based on a best value decision, where technical factors will be more important than price. *Evaluation criteria are listed in descending level of importance.*

a) Technical Acceptability: The contractor's quotation shall be evaluated as 'exact match to spec.' No substitutions are allowed. Offerors must provide the item(s) requested in the line item description in the schedule to be considered a responsive offer.

b) Price – Price will be weighted by the ability of the offeror to provide flexible monthly billing based upon number of agents that use the solution. Contractors' price quotations will be evaluated to determine realism and reasonableness.
