

# Reservations with Significant Timberland Resources

**GIS Data Sources:**  
 American Indian lands obtained from USGS 1:24,000 Quad Maps and imported into GIS ArcInfo format by the U.S. Bureau of Indian Affairs, Geographic Data Service Center (GDSC), April 2004. (source scale 1:100,000). Federal Register / Vol. 68, No. 234 / Friday, December 5, 2003 / Notices, Page 68180. There are currently 562 recognized tribal entities. There are no federally recognized tribal entities in Hawaii. There may be private holdings within the boundaries of the American Indian Reservations depicted on this map.

Timberland Resources compiled by the Second Indian Forest Management Assessment Team (IFMAT-II) for the Intertribal Timber Council, December 2003. Data Source - INFODAT Database as of 9/30/04 USDI BIA OTS Division of Forestry, Branch of Forest Resources Planning.

On the Alaska inset map the boundaries depicted are defined by the Alaska Native Claims Settlement Act (ANCSA). The Bureau of Indian Affairs uses these boundaries for management purposes which are shown on the map for reference only. The ANCSA Regional and Village Corporations are incorporated under the status of the State of Alaska. The ANCSA corporations are managed as profit seeking organizations by their elected board of directors for the benefit of their Alaska Native shareholders. These corporations are not Federally Recognized Tribal Governments. The United States Government does not hold the lands owned by the ANCSA corporations in trust.

Map Reference Data Source - 2004 U.S. G.S. Digital Line Graph (DLG) (source scale 1:2,000,000) and ESRI Data & Maps 2004.

Albers projection based on standard parallels 45 30' and 29 30', central meridian -96 and latitude of origin 23.

**Reservation Timberland Designation**

- Major Timberland Resources (Category 1)
- Minor Timberland Resources (Category 2)
- Other Categories (3, 4, 5)
- ★ BIA Regional Office
- Regional Boundaries
- Alaska Native Claims Settlement Act (ANCSA)

**Map Usage Constraints:**  
 The use of this map/data for engineering work or to legally define reservation boundaries is prohibited. Although many steps are taken to keep this map/data current with the official designation, it should NOT be considered as a legal version of the reservation boundary, only a good faith attempt to depict it graphically. Any use of trade, product, or firm names is for descriptive purposes only and does not imply endorsement by the U.S. Government, the Bureau of Indian Affairs (BIA), or the Geographic Data Service Center (GDSC). Although the Bureau of Indian Affairs, GDSC, has used this map/data, no warranty expressed or implied is made by the GDSC as to the accuracy of the map/data and related materials. The act of distribution shall not constitute any such warranty, and no responsibility is assumed by the GDSC in the use of this map/data, or related materials.

**Major Timberland Resources (Category 1)**  
 (Over 10,000 acres of commercial timberland or over 1 million board feet allowable cut). Ranked in order of Forest Acreage.
