Safety and Occupational Health Program

Chapter 9

Technical Assistance Program

Page 1

9.1 Purpose. This chapter describes the technical assistance available to field operations, tribal governments and other agencies.

9.2 Field Operations. The Division of Safety and Risk Management will provide technical guidance and assistance to Central Office Programs, Regional Directors and their staff, in the areas of: Occupational Safety and Health; Motor Vehicle Safety; Loss Compensation; and Employee Injury Compensation.

9.3 Tribal Governments. When requested, the Division of Safety and Risk Management will provide technical assistance to Indian tribes, tribal groups and tribal contractors in all matters pertaining to safety and safety programming in their communities and on their lands. The Division will provide this technical assistance to the extent resources are available.

9.4 Other Agencies. When requested, the Division will provide technical assistance to other Federal, state and local agencies to the extent resources are available.
