# INDIAN POPULATION

# APPENDIX

## INDIAN POPULATION

An Indian, as defined by the Indian Service, includes any person of Indian blood who through wardship, treaty, or inheritance has acquired certain rights. The Census Bureau defines an Indian as a person having Indian blood to such a degree as to be recognized in his community as an Indian. Furthermore, the population enumerated at the Federal agencies is not necessarily domiciled on or near the reservations. It is the population on the agency rolls and includes both reservation and nonreservation Indians. Thus an Indian may be carried on the rolls because of tribal or inheritence rights, etc., and may reside anywhere in the United States or in a foreign country. Reports of births and deaths among absentees are often not received. In many instances certification is made to the State registrars of vital statistics and thus to the Census Bureau, but not to the Indian Service. In a considerable number of cases the addresses of the nonreservation Indians are unknown. For the above reasons the statistics of Indian population as shown in the decennial reports of the Bureau of the Census do not agree with the statistics of the Indian Service.

Since funds were not available to secure the services of temporary employees for coding and tabulating the 1933 census rolls, the April 1, 1933, Indian population was tabulated in the field by the various agencies. In order to check the tabulation made from the census rolls three additional tabulations were required, showing all changes made on census rolls since 1932. One tabulation shows the changes by exact cause under the two headings, "Additions" and "Deductions". Under "Additions" were shown separately the births for the past year, unreported births for previous years, enrollment by departmental authority, etc., while under "Deductions" were grouped separately deaths for the past year, unreported deaths for previous years, dropped by departmental authority because of wrongful enrollment, duplications, etc. The second tabulation reports these same changes by residence of Indians, and the third tabulation shows all Indians on both the 1932 and 1933 census rolls who have changed their residence—the residence in 1932 reported under "Deductions" and the residence in 1933 under "Additions". The additions and deductions on the second and third tabulations were added to and subtracted from the 1932 population and the results equal the tabulations from

the 1933 census rolls. This gives not only a check on the tabulations but an analysis of all changes at each jurisdiction.

The total estimated and enumerated number of Indians thus reported in 1933 was 320,454. This number consists of 231,754 Indians actually enumerated and 88,700 Indians taken from earlier or special censuses and estimates based on records. For convenience, the latter number will be considered hereafter as an estimate. (See tabular statement below.)

The Bureau of the Census reported 72,643 Indians of the Five Civilized Tribes in 1930, and this number has been substituted for our previous estimated population of the Five Civilized Tribes. (See p. 49 of the Annual Report of the Commissioner of Indian Affairs, June 30, 1931, for further discussion on the estimated population for Five Civilized Tribes.)

The aggregate estimate and enumerated number of Indians reported by Federal agencies on April 1, 1933, represents an increase over the corresponding figure for the previous year of 3,220 or 1 percent.

Of the 231,754 Indians enumerated, 118,076 were males, 113,672 females, and for 6 the sex was not reported.

It is significant when the Indians enumerated are considered that 197,852, or 85.4 percent, resided at the Federal jurisdiction where enrolled, while only 5,013, or 2.2 percent, resided at another jurisdiction, and 28,889, or 12.5 percent, resided elsewhere; that is, outside of any Federal jurisdiction.

Of the 32,447 Indians residing elsewhere on April 1, 1930, 41 were living in the New England States, 208 in the Middle Atlantic, 3,633 in the East North Central, 9,234 in the West North Central, 437 in the South Atlantic, 93 in the East South Central, 2,166 in the West South Central, 5,120 in the Mountain States, and 6,024 in the Pacific States, and for 5,491 Indians the residence was either not reported or unknown.

The combined population of four States, Oklahoma, Arizona, New Mexico, and South Dakota, is 199,388, or 62.2 percent of the total Indian population.

Oklahoma has far more Indians than any other State. If the Federal census population for the Five Civilized Tribes is included, the Indian population is 94,707, or 29.6 percent of the aggregate Indian population. Arizona ranks next with 43,927, or 13.7 percent, followed by New Mexico with 34,196, or 10.7 percent, and South Dakota, 26,558, or 8.3 percent of the total population. According to the enumerated population no other State has an Indian population of over 15,000.

Heretofore the entire population of Southern Navajo Reservation was reported under Arizona. This year the population of the reservation extending over into New Mexico is included ur that State,

IN REPLY REFER TO:
El Tejon Indians

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF INDIAN AFFAIRS

Sacramento Area Office
Sacramento 4, California
August 19, 1952

Mrs. Celestina Garcia Montes
P. O. Box 1560 c/o Tejon Ranch
Bakersfield, California

Dear Mrs. Montes:

This is in reply to your letter dated August 4, 1952, in which you describe your loss due to the recent earthquake. We are very sorry to learn of the damage done.

This is to advise that the Bureau of Indian Affairs is not able to assist you at this time with your rebuilding problems.

We have been in contact with the Red Cross Director in Bakersfield, and it is our understanding that the Red Cross and the County are planning to assist your group by rehabilitating you on the Tejon Ranch or at some other location nearer the schools and other facilities important to your welfare.

Your question relative to Edward Montes' affidavit is being referred to our enrollment section; it will be answered in a separate letter.

Sincerely yours,

George T. Henderson
Soil Conservationist

Land
207.3 - El Tejon Ranch

Sacramento Area Office
P. O. Box 749
Sacramento 4, California
June 3, 1953

Mr. Paul E. Herzog
1133 East 68th Street
Inglewood, California

Dear Mr. Herzog:

Reference is made to your letter of May 14, 1953, regarding the Indians who live on the El Tejon Ranch in Kern County. The Indian Bureau has been concerned over the welfare of these Indians for many years.

About 1915 a suit was brought in the Federal Court to establish the right of these Indians to the land which they occupied. However, the decision of the court was that the Indians did not have any right of occupancy on the ranch and therefore they could not establish title to the land involved. Therefore, the Indians are living on the El Tejon Ranch as tenants of the owners of that property. Since the land occupied by these Indians is privately-owned, the government has no jurisdiction over the property and government funds appropriated to the Indian Service cannot be used for improving the facilities of these Indians.

Sincerely yours,

(Signed) Leonard M. Hill

Leonard M. Hill
Area Director
