

Tribal Interior Budget Council

November 19, 2015

Background

- In 2014, the Office of Management and Budget (OMB) gave a presentation to Tribal - Interior Budget Council (TIBC) about the 2015 Native American cross-cut that identified resources.
- TIBC outlined the need for information to access these resources.
- The Native One Stop was developed in response to input from the TIBC.

Proposal 2016

- Incorporating this feedback, 2016 Presidential budget requested proposed an increase of \$4 million to establish a One-Stop Tribal Support Center.
- That center would include an online portal and services to support tribes in accessing federal programs and resources at the regional and local levels.
- Technical support staff in both DC and Regions.

Federal Coordination

- In collaboration with the Whitehouse Council, OMB and the Department of Labor, we develop the Website and content, for the Native One Stop, which was unveiled this month.
- Indian Affairs coordinated efforts across the federal government to gather information on resources by working with the White House Council on Native American Affairs.

Website Launch

- At its launch, the site included over 80 different resources with categories such as Education, Employment, Environment, Food, Loans, and Youth.
- American Indians and Alaska Natives may answer a series of questions on the site to determine if they are eligible to apply for any of these resources.
- Information on additional resources is being added on an ongoing basis.

RESOURCE FINDER

Answer a brief series of questions to find out which government resources you may be eligible to receive.
