Honorable John Blackhawk

P.O. Box 687
Winnebago, Nebraska 68071

Dear Chairman Blackhawk:

On September 27, 1995, we received the Second Amendment to the Winnebago Tribe of Nebraska (Tribe) and the State of Iowa (State) Gaming Compact (Amendment), dated September 12, 1995. We have completed our review of this Amendment and conclude that it does not violate the Indian Gaming Regulatory Act of 1988 (IGRA), Federal law, or our trust responsibility. Therefore, pursuant to delegated authority and Section 11 of the IGRA, we approve the Amendment. The Amendment shall take effect when the notice of our approval, pursuant to Section 11 (d)(3)(B) of IGRA, 25 U.S.C. § 2710(d)(3)(B), is published in the FEDERAL REGISTER.

We wish the Tribe and the State success in their economic venture.

Sincerely,

Caribbean Stud

Caribbean Stud is a five card stud poker game. To play, you make a wager in the “Ante Box”: (within posted limits). You receive five cards face down and one card face up. You then look at your cards and have the option to play or fold. If you choose to fold, you lose your ante wager.

After all the players have made their decision, the Dealer then reveals his/her remaining four cards. If the Dealer has an Ace and a King or higher, he/she will play the hand. The Dealer compares his/her hand to the Player’s hand (starting right to left). If the Player’s hand beats the Dealer’s, it will be paid even money (1 to 1) on the ante wager and the following bonus amount on the Player’s bet.

Up to Maximum Payout

If the Dealer does not have at least an Ace and a King, then the Player is paid even money on the ante wager and no action is taken on the bet. If the Dealer’s hand beats the Player’s hand, the Dealer takes both the ante and the bet. In addition to the table play, there is an optional Progressive Jackpot. You play this by dropping one dollar token into the slot in front of the ante box prior to the start of a new hand. This bet qualifies you for the progressive jackpot, regardless of the outcome of your ante and bet.

The following hands will receive a bonus:

- Royal Flush: 100% Progressive Jackpot
- Straight Flush: 10% Progressive Jackpot
- 4 of a Kind: $500.00
- Full House: $100.00
- Flush: $50.00
Mini Baccarat

Baccarat, pronounced Bah-ka-rah, is an elegant, simple game that is played with eight decks of cards shuffled by the dealer and placed in the “shoe”.

Baccarat betting decisions are simple: how much do you want to bet on the hand of the Bank or the Player. You may also bet that these “two hands” will end in equal totals or “tie”. Although a Player is called the Banker, all Players are betting against the house, not against each other.

Bettors wager on either the Player’s or Banker’s hand at any time before “no more bets” is announced by the dealer. The object of the game is to bet on the hand with a final point total closest to 9. All numbered cards 2 thru 9 count as face value. Picture cards (Jack, Queen, King) and tens count as zero and Aces count as one. For example a 7-Queen draw has a point total of 7 while an Ace-3 counts as 4.

To begin the game, four cards are dealt alternately from the shoe. The first card is dealt to the Player’s hand, second to the Banker’s hand, third to the Player’s hand and fourth to the Banker’s hand. If the point count of either hand is 8 or 9, it is called a “natural” and no additional cards are drawn. The drawing of a third card, if necessary, is dictated by strict rules depicted in the accompanying tables. In no event shall more than one additional card be dealt to either hand. Providing the Bank does not have a natural, the Player’s hand draws a third card first. Thereafter, the Banker’s hand is completed according to the table. If both hands end in equal totals, it is a tie and neither hand wins or loses.

In Baccarat, the dealer calls the entire game, clearly indicating when and how to draw all the cards. This ancient, fascinating game is easy to understand and exciting to play for both beginners and experts alike.
