alternative would also include a substantial expansion in visitor services over Alternative A, including a new environmental education program, improved roads, a new auto tour route, and new wildlife viewing trails.

Under the preferred alternative, Alternative C, we would expand inventory and monitoring for bighorn sheep, special status species, and vegetation and wildlife communities throughout the Refuge. Under this alternative, we would also use prescribed fire and naturally ignited fires in Refuge plant communities where appropriate to restore vegetation characteristics representative of a natural fire regime. Alternative C would also include fencing along the eastern boundary where appropriate as well as the permanent closure of illegal roads and rehabilitation of damaged habitat along the southern and eastern boundaries. Visitor services under this alternative would be the same as under Alternative B except no auto tour route or wildlife viewing trails would be developed.

Under Alternative D, the wildlife management and inventory and monitoring programs would be similar to Alternative C. However, under this alternative, visitor services would be scaled back from the other alternatives. For example, the visitor center would only be staffed on weekends during the off-peak seasons and there would be no road improvements on the Refuge.

Alternatives for Moapa Valley National Wildlife Refuge

Under Alternative A, the no action alternative, we would continue to manage the Refuge as we have in the recent past. Springhead and channel restoration work and visitor facilities on the refuge would be completed. The limited inventory and monitoring program would also continue. However, the Refuge would remain closed to the public, except by special arrangement.

Under Alternative B, wildlife management programs would be similar to Alternative A, with minor improvements, including expanded surveys for sensitive species and their habitats, and strategies for removing nonnative aquatic species. We would also restore native vegetation along the springsheads and channels on the Pederson Unit. This alternative would include a substantial expansion in visitor services over Alternative A, including opening the Refuge on weekends and improved visitor facilities.

Under the preferred alternative, Alternative C, wildlife management would be similar to Alternative B, but would include increased monitoring and the development of a long term inventory and monitoring plan for sensitive species. In addition, we would restore the springheads and channels and associated native vegetation on the Apacar unit. Under Alternative C, we would expand the Refuge acquisition boundary by 1,765 acres and pursue acquisition of the lands within the boundary to protect habitat for Moapa dace and other sensitive species. Under this alternative, the Refuge would be open to visitors every day, the environmental education program would be expanded, and additional trails would be constructed.

Alternatives for Pahranagat National Wildlife Refuge

Under Alternative A, the no action alternative, we would continue to manage Pahranagat National Wildlife Refuge as we have in the recent past. The in-progress hydrology studies would be completed and a wetland habitat management plan would be developed and implemented. Riparian habitat would be maintained for the southwestern willow flycatcher and other migratory birds. Under this alternative, we would maintain the fishing, hunting, wildlife observation, and environmental education and interpretation opportunities on the Refuge. The campground would be maintained in its current state.

Under Alternative B, we would expand wildlife management and visitor services on the Refuge. Wildlife surveys and efforts to control invasive plants would be expanded and a new refuge for the Pahranagat roundtail chub would be developed. The visitor contact station would be expanded and a new interpretive kiosk would be developed. The campground would also be maintained but fees would be charged and the maximum length of stay would be reduced from 14 to 7 days.

Under Alternative C, management would be similar to Alternative B, with the following exceptions. Under this alternative, we would develop and implement restoration plans for degraded springs on the Refuge. In addition, a new visitor contact station, interpretive walking trail, and photo blind would also be developed. Under this alternative, we would convert the campground to a day-use area.

Under the preferred alternative, Alternative D, management would be similar to Alternative C, except we would seek to acquire additional water rights for the Refuge to provide more flexibility in wetland management. Also, we would restore native upland habitat adjacent to Lower Pahranagat Lake and expand the surveying and monitoring programs under this alternative. Visitor services would be similar to Alternative C except we would close existing boat ramps and offer alternative car-top boat launches.

Decision Process

The final CCP/EIS contains our responses to all comments received on the draft document. We will make a decision no sooner than 30 days after the publication of the final CCP/EIS. We anticipate that a Record of Decision will be issued by the Service in early 2009.

We provide this notice under regulations implementing NEPA (40 CFR 1506.6).

Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers by (TA-W) number issued during the period of June 29 through July 10, 2009.

In order for an affirmative determination to be made for workers of a primary firm and a certification issued regarding eligibility to apply for worker adjustment assistance, each of the group eligibility requirements of Section 222(a) of the Act must be met.

1. Under Section 222(a)(2)(A), the following must be satisfied:

   (1) A significant number or proportion of the workers in such workers' firm have become totally or partially separated, or are threatened to become totally or partially separated;
   (2) The sales or production, or both, of such firm have decreased absolutely; and
   (3) One of the following must be satisfied:
      (A) Imports of articles or services like or directly competitive with articles produced or services supplied by such firm have increased;
      (B) Imports of articles like or directly competitive with articles into which one or more component parts produced by such firm are directly incorporated, have increased;
      (C) Imports of articles directly incorporating one or more component parts produced outside the United States that are like or directly competitive with imports of articles incorporating one or more component parts produced by such firm have increased;
      (D) Imports of articles like or directly competitive with articles which are produced directly using services supplied by such firm, have increased; and
      (E) The increase in imports contributed importantly to such workers' separation or threat of separation and to the decline in the sales or production of such firm;

2. Under Section 222(a)(2)(B) all of the following must be satisfied:

   (1) A significant number or proportion of the workers in such workers' firm have become totally or partially separated, or are threatened to become totally or partially separated;
   (2) One of the following must be satisfied:
      (A) There has been a shift by the workers' firm to a foreign country in the production of articles or supply of services like or directly competitive with those produced/supplied by the workers' firm;
      (B) There has been an acquisition from a foreign country by the workers' firm of articles/services that are like or directly competitive with those produced/supplied by the workers' firm; and
      (C) The shift/acquisition contributed importantly to the workers' separation or threat of separation.

In order for an affirmative determination to be made for adversely
2009 AMENDMENTS TO THE
