National Park Service

Quarry Visitor Center, Draft Environmental Impact Statement, Dinosaur National Monument, Colorado and Utah

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of availability of the draft environmental impact statement for the quarry visitor center, dinosaur national monument.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(c)(C), the National Park Service announces the availability of a Draft Environmental Impact Statement for the Quarry Visitor Center at Dinosaur National Monument, Colorado and Utah.

The Draft Environmental Impact Statement contains five alternatives.

Alternative A—No Action. The Quarry Visitor Center (QVC) was closed to the staff and public because of serious safety issues caused by building instability on July 12, 2006. The QVC protected 1,500 dinosaur fossils in situ and provided access to the park's primary resource. The building would remain closed to the public; functions would remain displaced; and critical resources would be threatened.

Alternative B—Preferred Alternative—Rehabilitate the Exhibit Hall and Construct a New Facility offsite. The existing exhibit hall would be rehabilitated to adequately protect fossil resources and provide access to the public. Currently displaced functions would be constructed at a location offsite that has stable soil.

Alternative C—Retain the Exhibit Hall and Construct a New Facility at the Quarry Visitor Center. The exhibit hall would be rehabilitated to protect fossil resources and provide access to the public, and the currently displaced functions would be constructed on the unstable soil that has caused building movement for more than 50 years.

Alternative D—Retain the Exhibit Hall and Construct Wings Similar. The exhibit hall would be rehabilitated to protect fossil resources and provide access to the public. The remaining portions of the building would be reconstructed in the original footprint and dysfunctional configuration on the unstable soil that has caused building movement for more than 50 years.

Alternative E—Demolish the Entire Facility and Construct a New Facility at the QVC Site. The entire building would be demolished and rebuilt on the unstable soil that has caused building movement for more than 50 years.

General Assumptions/Conditions that Apply to all Alternatives—Engineers and architects estimate that only 10% of the historic fabric could be used for any of the alternatives. All alternatives would result in reconstruction, which is not an approved treatment under the Secretary's guidelines. Thus, the National Historic Landmark designation cannot be preserved under any alternative.

DATES: The National Park Service will accept comments on the Draft Environmental Impact Statement from the public for 60 days from the date the Environmental Protection Agency publishes the Notice of Availability. No public meetings are scheduled at this time.

Honorable Leonard Forsman
Chairman, Suquamish Tribe
P.O. Box 498
Suquamish, Washington 98392-0498

Dear Chairman Forsman:

On April 3, 2007, we received the Second Amendment to the Tribal-State Compact for Class III Gaming between the Suquamish Tribe (Tribe) and the State of Washington (State), executed on March 30, 2007 (Amendment). We have completed our review of this Amendment and conclude that it does not violate the Indian Gaming Regulatory Act (IGRA), any other provision of Federal law that does not relate to jurisdiction over gaming on Indian lands, or the trust obligations of the United States to Indians. Therefore, pursuant to my delegated authority and Section 11 of IGRA, we approve the Amendment. This Amendment shall take effect when the notice of our approval, pursuant to Section 11(d)(3)(B) of IGRA, 25 U.S.C. §2710(d)(3)(B), is published in the FEDERAL REGISTER.

We wish the Tribe and the State continued success in their economic venture.

Sincerely,

[Signature]

Acting Principal Deputy Assistant Secretary –
Indian Affairs
