Honorable Janice Prairie Chief-Boswell  
Governor, Cheyenne-Arapaho Tribes  
Office of Tribal Council  
P.O. Box 38  
Concho, Oklahoma 73022

Dear Governor Prairie Chief-Boswell:

On June 18, 2013, the Department of the Interior (Department) received the proposed Class III Settlement Agreement (Agreement) between the Cheyenne Arapaho Tribes (Tribes) and the State of Oklahoma (State), providing for the conduct of Class III gaming activities by the Tribes.

Under the Indian Gaming Regulatory Act (IGRA), the Secretary may approve or disapprove a proposed compact within 45 days of its submission. See 25 U.S.C. § 2710 (d)(8). Section 293.4(b) of 25 C.F.R Part 292 provides that “[a]ll amendments, regardless of whether they are substantive amendments or technical amendments, are subject to review and approval by the Secretary.” If the Secretary does not approve or disapprove the proposed compact within 45 days, IGRA states that the compact is considered to have been approved by the Secretary, “but only to the extent the compact is consistent with the provisions of IGRA.” 25 U.S.C. § 2710 (d)(8)(C).

We have completed our review of the Agreement, along with the additional material submitted by the Tribes and the State. As discussed in more detail below, we find that the Agreement constitutes an amendment to the Tribes’ existing Class III compact (Compact) and pursuant to IGRA, it is subject to the Department’s review. We note at the outset that the Agreement provides for the conduct of internet gaming. Because we find that other provisions of the Agreement violate IGRA, we do not reach the issue of whether the Tribes’ proposed method of offering internet gaming is lawful.\(^1\) For the reasons discussed below, the Agreement is hereby disapproved.

**BACKGROUND**

The Tribes currently operate Class III gaming under the terms of the Compact, which was approved by the Department on March 16, 2005. See Notice of Approved Tribal-State Compacts, 70 Fed. Reg. 18041 (April 8, 2005). Last year, the Tribes began operating a “free play” internet gaming site, www.pokertribes.com. The State challenged the Tribes’ activities, contending that the Tribes were materially violating the Compact. As required by the Compact, the Tribes and the State entered into a dispute resolution process in an attempt to resolve their differences. Their efforts resulted in execution of the Agreement that is before us today.

---

\(^1\) As this is an unsettled area of law that does not require clarification from the Department at this time, we take no position as to the legality of internet gaming under the circumstances presented.
The Agreement includes a number of stipulations between the Tribes and the State, including that all gaming in physical or electronic form is “covered gaming” under the Compact,\(^2\) that all gaming, regardless of location of the gaming transaction is “covered conduct” under the Compact, and that “all forms of internet and/or electronic gaming by individual players . . . is permissible if the individual player is located or resides outside the boundary of the United States and its territories during the entirety of a gaming transaction pursuant to the attached technical standards of play.”

Paragraph 8 of the Agreement provides that the Tribes “will pay to the State 20% of all gaming revenues generated by all forms of internet and/or electronic gaming by individual players, who are not physically present at all times in a facility located entirely on Indian lands as defined by IGRA, but are located or reside outside the boundary of the United States and its territories during the entirety of a gaming transaction.” Paragraph 10 states that “twenty percent of all gaming revenues with respect to online activities that require no traditional brick and mortar operating expenses roughly equates to the ten percent maximum allowable under the State-Tribal Gaming Compact,” and that “twenty percent is equitable.” In other words, revenue sharing increases from between 4% to 6% of the Compact-defined “adjusted gross revenues” from specified games and 10% for non house-banked games, to 20% of all “gaming revenues” generated by all forms of internet and/or electronic gaming.\(^3\)

On July 8, 2013, we sent the Tribes a letter seeking clarification on several issues arising from the Agreement. In part, we sought an analysis from the Tribes regarding the Agreement’s revenue sharing requirements, an explanation of the meaningful concessions by the State, and how those concessions may provide substantial economic benefits to the Tribes such that the revenue sharing requirements do not constitute a tax, fee, charge or other assessment in violation of IGRA. See 25 U.S.C. § 2710(d)(4).

On July 17, 2013, counsel for the Tribes responded to the Department’s letter. With regard to the Agreement’s revenue sharing requirements, the Tribes provided a single paragraph that, stated in relevant part that the revenue sharing requirements were:

---

\(^2\) Section 3 of the Compact defines a “covered game” as:

“Covered game” means the following games conducted in accordance with the standards, as applicable, set forth in Sections 11 through 18 of the State-Tribal Gaming Act: an electronic bonanza-style bingo game, an electronic amusement game, an electronic instant bingo game, nonhouse-banked card games; any other game, if the operation of such game by a tribe would require a compact and if such game has been: (i) approved by the Oklahoma Horse Racing Commission for use by an organizational licensee, (ii) approved by state legislation for use by any person or entity, or (iii) approved by amendment of the State-Tribal Gaming Act; and upon election by the tribe by written supplement to this Compact, any Class II game in use by the tribe, provided that no exclusivity payments shall be required for the operation of such Class II game.

\(^3\) The Agreement does not define “gaming revenues.” The Compact defines “adjusted gross revenues” in a manner that is similar to what is generally referred to as “net win” in other tribal-state compacts. For purposes of this decision, we interpret “gaming revenues” as having the same meaning as “adjusted gross revenues” as defined in the existing Compact.
...justified because a) the decrease in capital costs associated with ‘brick and mortar’ Facilities under the Compact, and/or b) the corresponding tax consequence of operating an online operation outside of the United States and having to repatriate funds to the Tribe at the repatriation rates of 15% for the State and 36% for the Federal Government, respectively. This consideration results in a 31% savings on the entirety of the transactions for the Tribes when compared to an offshore site.

The Tribes also provided a letter from Eclipse Compliance Testing dated July 18, 2013, discussing the games included in the Appendix to the Technical Standards.

ANALYSIS

The Secretary may disapprove a proposed tribal-state compact only when it violates IGRA, any other provision of Federal law that does not relate to jurisdiction over gaming on Indian lands, or the trust obligations of the United States to Indians. 25 U.S.C. § 2710 (d)(8). The IGRA expressly prohibits the imposition of a tax, fee, charge, or other assessment on Indian gaming except to defray the state's costs of regulating Class III gaming activities. 25 U.S.C. § 2710 (d)(4). The IGRA further prohibits using this restriction as a basis for refusing to negotiate tribal-state gaming compacts. Id.

Revenue Sharing

We review revenue sharing requirements in gaming compacts with great scrutiny. Our analysis first looks to whether the state has offered meaningful concessions to the tribe. The Department’s long-standing analysis on this issue examines whether the state concedes something it was not otherwise required to negate, such as granting exclusive rights to operate Class III gaming or other benefits sharing a gaming-related nexus. We then evaluate whether the value of the concessions provide substantial economic benefits to the tribe in a manner justifying the revenue sharing required. We note that the Ninth Circuit’s recent decision in Rincon Band of Luiseno Mission Indians of the Rincon Reservation v. Schwarzenegger4 cited with approval the Department’s long-standing revenue sharing analysis.

a. Meaningful Concessions

Under the first step of our analysis, we find that the State has not offered a meaningful concession. We do not reach the issue of whether internet gaming as contemplated in the Agreement is lawful. The Tribes concede that, even if lawful, such games “fall into one of the four categories of permissible games under the Oklahoma State-Tribal Gaming Compact.” See Letter to Richard J. Grellner, Esq., regarding Synopsis of Permissible Games Included in Appendix of the [Technical Standards]for Compliance with IGRA and Oklahoma Tribal-State Gaming Compact, from Nick Farley, President, Eclipse Compliance Testing (July 18, 2013). In other words, even if such gaming is lawful, the Agreement does not expand the scope of gaming authorized under the existing Compact. Rather, it provides a different method of delivering

---

4 602 F.3d 1019 (9th Cir. 2010), cert denied, 131 S. Ct. 3055 (2011).
types of games already permitted under the Compact. We recently determined that authority to
operate wireless gaming was not a concession because it was simply an extension of the Class III
gaming authorized by the proposed compact. See Letter to Chairman Cedric Cromwell,
Mashpee Wampanoag Tribe, from Kevin K. Washburn, Assistant Secretary – Indian Affairs
(October 12, 2012). In the absence of any meaningful analysis by the Tribes on this issue, we
are not persuaded that offering the same scope of gaming already operated by the Tribes amounts
to a meaningful concession.

b. Substantial Economic Benefits

Even if a different method of delivering types of games permitted under an existing Compact
were a meaningful concession, the Tribes have not demonstrated that this concession would
provide substantial economic benefits to the Tribes in a manner justifying the revenue sharing
required. The single paragraph response provided in the Tribes’ July 17, 2013, letter does not
provide the basic information to analyze whether the concession provides substantial economic
benefits to the Tribes. In the absence of a reasonable financial analysis from the Tribes, we
cannot conclude that unquantified, unknown economic benefits the Tribes may realize, if any,
would justify the 20% rate of revenue sharing required under the Agreement.

Bald assertions such as those contained in Paragraph 10 of the Agreement that “twenty percent
of all gaming revenues with respect to online activities that require no traditional brick and
mortar operating expenses roughly equates to the ten percent maximum allowable” under the
Tribes’ Compact cannot be relied upon to determine whether the Tribes are receiving a
substantial economic benefit. While internet gaming could have lower operational costs than
traditional gaming, paying the State 20% of all internet gaming revenues could result in the State
earning more revenue than the Tribes receive from such gaming after they pay its operational
expenses. This would render the State, rather than the Tribes, the primary beneficiary of Indian
gaming in violation of IGRA. We simply have not been provided adequate analysis to insure
that these terms are lawful. Even if we were convinced that the State had made a meaningful
concession, in the absence of any meaningful analysis of the economic benefits we hereby
disapprove the Agreement.

The Agreement Amends the Tribes’ Existing Compact

On April 8, 2013, the Tribes submitted the Agreement for review without a tribal resolution or
certification from the State that Governor Fallin was authorized to bind the State to the
Agreement. In order to insure that all compacts or amendments we receive have been "entered
into" by the responsible parties, our regulations require that all submissions include both a tribal
approval resolution and a certification from the state that its representative was authorized to
enter into the agreement. 25 C.F.R. §§ 293.8 (b) and (c). In a May 1, 2013, letter, the Director of

3 On rare occasions, compacts have taken effect by operation of law in situations where tribes have not provided
sufficient justification for revenue sharing. Those instances have typically involved compacts with nominal revenue
sharing requirements or a model tribal-state compact that contemplated brick-and-mortar gaming facilities. See, e.g.,
Tribal-State Compacts between the Iowa Tribe, the Modoc Tribe, the Ottawa Tribe, the Delaware Nation, and the
Sac & Fox Nation and the State of Oklahoma, 70 Fed. Reg. 31499 (June 1, 2005). Those compacts are approved by
operation of law only to the extent they are consistent with IGRA.
the Office of Indian Gaming (Director) returned the Agreement to the Tribes, explaining that a compact submitted without the required documentation is “not properly before us and the 45-day review period was not triggered.” The Director invited the Tribes to re-submit the Agreement in compliance with the regulations and the record was closed.

The Tribes assert that the review period under IGRA expired 45 days after the Agreement was originally submitted on April 8, 2013. However, the Department’s regulations make plain that the Agreement was not lawfully submitted to the Department until the current submission was received on June 18, 2013. The Tribes’ own resolution underscores this basic fact in that the resolution did not become effective until thirty days after it was signed on May 13, 2013, by the Tribes’ Governor. Accordingly, no documents sent by the Tribes prior to the submission that was received by the Department on June 18, 2013, constitute a submission of the Agreement that complied with our regulations and triggered IGRA’s 45-day review period.

In the letter accompanying the submission of the Agreement, the Tribes assert that they “believe that [the Agreement] is not a matter that merits your offices [sic] consideration or approval. However, we wanted you to be aware of it as a courtesy.” As indicated in the Director’s May 1 letter to the Tribes, it is clear that the Agreement’s express terms amend the Tribes’ existing Compact and incorporate many of the terms contained therein. Accordingly, we find that it constitutes an amendment of the Tribes’ existing compact and is subject to our review and approval.

CONCLUSION

Based on the above analysis, we find that the Agreement violates IGRA. The Agreement is disapproved. The Department appreciates the efforts of the Tribes and the State to work together to attempt to reach an agreement on important matters affecting their relationship. We deeply regret that this decision is necessary, and understand that it may constitute a significant setback for the Tribes. Nevertheless, the Department is committed to upholding IGRA and we cannot approve a compact that violates IGRA in the manner described above.

A similar letter has been sent to the Honorable Mary Fallin, Governor of the State of Oklahoma.

Sincerely,

Kevin K. Washburn
Assistant Secretary-Indian Affairs
SETTLEMENT AGREEMENT BETWEEN
THE STATE OF OKLAHOMA
AND THE CHEYENNE-ARAPAHO TRIBES

This Settlement Agreement ("Agreement") is entered into by and between the State of Oklahoma ("State") and the Cheyenne-Arapaho Tribes of Oklahoma (collectively "Tribes") (all of which are hereafter collectively referred to as "the Parties"), through their authorized representatives.

RECITALS

A. The Parties have previously entered into a State Tribal Gaming Compact, published in the Federal Register, Vol. 70, No. 67, Friday, April 8, 2005, and filed with the Oklahoma Secretary of State on March 30, 2006.

B. The Tribes are currently operating an online website www.pokertribes.com. The State contends that as currently operated, this website, and other similar electronic practices, materially violate the State Tribal Gaming Compact.

C. Part 12 - Dispute Resolution of the State Tribal Gaming Compact states that it is the goal of the parties to "resolve all disputes amicably and voluntarily." Therefore, due to the high regard with which each sovereign holds the other, to avoid the delay, uncertainty, inconvenience, and expense of protracted arbitration and litigation of the above dispute, and in consideration of the mutual promises and obligations of this Agreement, the Parties hereby agree and covenant as follows.
STIPULATIONS

1. IT IS HEREBY STIPULATED BY THE PARTIES, that any gaming by the Tribes, in all physical and electronic forms, is covered conduct under the State Tribal Gaming Compact.

2. IT IS HEREBY STIPULATED BY THE PARTIES, that gaming by the Tribes, regardless of the location of any portion of a gaming transaction, is covered conduct under the State Tribal Gaming Compact.

3. IT IS HEREBY STIPULATED BY THE PARTIES, that all forms of internet and/or electronic gaming by individual players, who are not physically present at all times in a facility located entirely on Indian lands as defined by IGRA, is covered conduct under the State Tribal Gaming Compact, but is not permissible and is prohibited if the individual player(s) are located or reside within the boundary of the United States and its territories during any portion of a gaming transaction.

4. IT IS HEREBY STIPULATED BY THE PARTIES, that all forms of internet and/or electronic gaming by individual players, who are not physically present at all times in a facility located entirely on Indian lands as defined by IGRA, is covered conduct under the State Tribal Gaming Compact, and is permissible if the individual player is located or resides outside the boundary of the United States and its territories during the entirety of a gaming transaction pursuant to the attached technical standards of play. See Attached Addendum.

5. IT IS HEREBY STIPULATED BY THE PARTIES, that violation of any of these stipulations, would constitute a per se material breach of the State Tribal Gaming Compact and be subject to the breach of contract remedy of termination. Such a termination would void any and all contracts and agreements between the State and the Tribes related to Class III Gaming.

6. IT IS HEREBY STIPULATED BY THE PARTIES, that these stipulations constitute the understanding of each of the Parties to the State Tribal Gaming Compact as to the intent and interpretation of existing Compact terms and shall be considered only statements of intent and/or clarification, not modifications of Compact terms. Further, these stipulations and this Settlement Agreement in no way expands or modifies Compact standards already in existence.

TERMS AND CONDITIONS

7. The Parties agree and acknowledge that Part 11 of the State Tribal Gaming Compact provides that in exchange for certain limitations on State action the Tribes are obligated to pay certain agreed fees. The Parties agree that the State has continuously maintained its Compact obligations and the Tribes agree to pay certain fees associated with all forms of internet and/or electronic gaming by individual players, who are not physically present at all times in a facility located entirely on Indian lands as defined by IGRA, but are located or reside outside the boundary of the United States and its territories during the entirety of a gaming transaction.
8. The Tribes covenant and agree to pay to the State twenty percent (20%) of all gaming revenues generated by all forms of internet and/or electronic gaming by individual players, who are not physically present at all times in a facility located entirely on Indian lands as defined by IGRA, but are located or reside outside the boundary of the United States and its territories during the entirety of a gaming transaction.

9. The State agrees that any other federally recognized tribe with a valid State-Tribal Gaming Compact with the State may permissibly conduct internet and/or electronic gaming by individual players who are not physically present at all time in a facility located entirely on Indian lands as defined by IGRA, but are located or reside outside the boundary of the United States and its territories during the entirety of the gaming transaction only upon entering into a Settlement Agreement with the State.

10. The Parties further agree that twenty percent of all gaming revenues with respect to online activities that require no traditional brick and mortar operating expenses roughly equates to the ten percent maximum allowable under the State-Tribal Gaming Compact. Each party agrees that twenty percent is equitable.

11. The Tribes agree all payments shall be made in accordance with State Tribal Gaming Compact provisions and all depository financial transactions related hereto shall be done in a financial institution located within the State of Oklahoma.

12. Each Party agrees that any determination by a Court or Governmental Agency, whether Tribal, Federal, or State, that purports to sever ¶ 8 above will not effect this Agreement as both Parties agree that this Agreement is settlement of a dispute between the State and the Tribes and, as such, is not subject to any approval pursuant to the Indian Gaming Regulatory Act.

13. Each Party shall bear its own legal and other costs incurred in connection with this matter, including the preparation and negotiation of this Agreement.

14. Each Party and signatory to this Agreement represents that it freely and voluntarily enters into this Agreement without any degree of duress or compulsion.

15. This Agreement is governed by the choice of law provisions contained within the State Tribal Gaming Compact.

16. For purposes of construing this Agreement, this Agreement shall be deemed to have been drafted by both Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

17. This Agreement constitutes the complete agreement between the Parties with respect to the issues addressed herein. This Agreement may not be amended except by signed written consent of the Parties.

18. The undersigned represent and warrant that they are fully authorized to execute this Agreement on behalf of the persons and entities indicated herein.
18. This Agreement may be executed in counterparts, each of which constitutes an original and all of which constitute one and the same Agreement.

19. This Agreement is binding on the Parties successors, transferees, heirs, and assigns.

20. State and Tribes agree that the approval of the National Indian Gaming Commission, the Bureau of Indian Affairs, and the Department of the Interior may be beneficial, but is not necessary for this Agreement to be in full force and effect.

21. State and Tribes agree that either Party may, at their discretion, submit this Settlement Agreement to the Department of the Interior for clarification purposes as an Addendum to the original State-Tribal Gaming Compact. Provided, however, that no action or inaction on behalf of the Department of the Interior is required for this Agreement to be in full force and effect.

22. Notwithstanding any other provision herein, the Parties agree that should any other entity or federally recognized tribe located within the State of Oklahoma be allowed, through agreement or otherwise, to operate internet gaming on terms of revenue and/or scope (including but not limited to geographical location of individual player(s)) different than those contemplated herein, such more favorable terms shall, at the option of the Tribes, automatically be incorporated herein.

23. This Agreement is effective on the date of signature of the last signatory to the Agreement (Effective Date of this Agreement). Facsimiles of signatures shall constitute acceptable, binding signatures for purposes of this Agreement.

24. This Agreement will terminate in conjunction with the State-Tribe Gaming Compact between the State of Oklahoma and the Cheyenne and Arapaho Tribes, which was published in the Federal Register, Vol. 70, No. 67, Friday, April 8, 2005, and filed with the Oklahoma Secretary of State on March 30, 2006.
IT IS AGREED:

Each of the undersigned represents that they are duly authorized, and has the authority, to execute this agreement on behalf of the designated party.

STATE OF OKLAHOMA
