**DEPARTMENT OF THE INTERIOR**

**Bureau of Indian Affairs**

[167A2100DD/AADD001000/A0A501010.999900]

**Indian Land Consolidation Lien Removal and Acquisition Fund Disposition**

**AGENCY:** Bureau of Indian Affairs, Interior.

**ACTION:** Notice of tribal consultation.

**SUMMARY:** This notice announces that the Department of the Interior (Department) is hosting a tribal consultation session regarding lien removal and Acquisition Fund disposition under the Indian Land Consolidation Program (ILCP).

**DATES:** The tribal consultation session will be held Thursday, June 9, 2016, from 9 a.m. to 12 p.m. Written comments must be received by June 17, 2016.

**ADDRESSES:** The tribal consultation session will be held in the Little Crow Room at Mystic Lake Casino-Hotel, 2400 Mystic Lake Blvd. NW., Prior Lake, MN 55372. Please address written comments to consultation@bia.gov or to: ILCP Waiver Comments, 1849 C Street NW., MS 3643, Washington, DC 20240.

**FOR FURTHER INFORMATION CONTACT:** Ms. Elizabeth K. Appel, Office of Regulatory Affairs & Collaborative Action, (202) 273–4680, elizabeth.appel@bia.gov.

**SUPPLEMENTARY INFORMATION:** Several tribes own interests in trust land that are subject to a lien held by the Department under the Indian Land Consolidation Act (Act). These tribes had participated in the ILCP to acquire individually owned interests and consolidate them into tribal ownership. The ILCP is no longer in operation, but the liens remain, and the revenue proceeds continue accruing to the Acquisition Fund. Likewise, funds remain in Acquisition Fund depository accounts. The Department seeks to consult with those Tribes that have ILCP liens and requests their input on its proposal to: (1) Remove existing liens on revenue accruing from land interests that tribes have purchased under the ILCP, and (2) dispose of the proceeds on deposit remaining in the Acquisition Fund by transferring the funds (segregated by tribe) to each impacted tribe’s trust account, to be used by the tribe to purchase additional on-reservation fractionated interests in parcels.

Lawrence S. Roberts,

Acting Assistant Secretary—Indian Affairs.

[FR Doc. 2016–11286 Filed 5–12–16; 8:45 am]

BILING CODE 4337–15–P
The petitioner claims to connect historically to the Cherokee Nation in Oklahoma more than to the Eastern Band of Cherokee Indians in North Carolina. The GTEC’s petition narrative maintains that its ancestors were part of the Cherokee Nation into the early 20th century. On August 10, 1998, Thomas B. Mote and other leaders of GTEC delivered the petitioner’s response to the Department’s 1980 letter and asked the Department to review the petition under the 1994 regulations. On January 19, 1999, the Department issued a TA review letter. The GTEC provided additional materials to the Department on February 14, 2002, September 11, 2006, and October 3, 2006, including a new membership list certified and dated September 1, 2006. On October 25, 2006, the Department placed GTEC (Petitioner #41) on the “Ready, Waiting for Active Consideration” list. On May 31, 2013, the Department offered “ready” petitioners the option of suspending evaluation of their petitions as the Department was proposing to revise the acknowledgment regulations. On June 21, 2013, GTEC waived its option to suspend evaluation and elected “to proceed under the current standards and criteria.”

In July 2014, the Office of Federal Acknowledgment (OFA) notified GTEC that its sampling of birth or similar records submitted in 2013 was insufficient for analysis, gave GTEC an additional 180 days to submit the necessary documentation, and noted that the evaluation team was diverted to another petition and litigation. As a result, the AS–IA found good cause to suspend active consideration under § 83.10(g) for 180 days to January 27, 2015, and extend active consideration under § 83.10(h) for up to 180 additional days, or until July 27, 2015. The OFA provided GTEC a list of members and ancestors lacking evidence demonstrating the child-to-parent link and a list of individuals with missing or incomplete addresses. Review of the GTEC petition was extended further until January 22, 2016, allowing the research team to make visits to the GTEC offices to review records and conduct interviews.

In response to a letter under § 83.7(b) of the 1994 regulations, effective July 31, 2015, all members of GTEC’s governing body requested evaluation of its petition under the 1994 regulations, declining the option to be evaluated under the current regulations. The proposed finding was date for issuing the proposed finding was subsequently extended to May 6, 2016. This evaluation is under the 1994 regulations as requested by the petitioner.

The evidence submitted by the GTEC petitioner and evidence Department staff obtained through its research does not meet three of the seven mandatory criteria for Federal acknowledgment: Criteria 83.7(a), 83.7(b), and 83.7(c). The petitioner has submitted evidence sufficient to meet: Criteria 83.7(d), 83.7(e), 83.7(f), and 83.7(g). In accordance with the regulations 25 CFR part 83, the failure to provide evidence sufficient to meet all seven criteria requires a proposed finding that the petitioning group is not an Indian tribe within the meaning of Federal law. An explanation of the Department’s evaluation of each criterion follows below.

Criterion (a) requires that external observers have identified the petitioner as an American Indian entity on a substantially continuous basis since 1900. The records show the petitioner is a recently organized group almost entirely composed of descendants of the Davis family. There are no contemporary identifications of an Indian entity in Lumpkin County, although a few records identify individuals as Indian. Many of the documents submitted relate the Cherokee Nation’s history leading up to and through the Removal Era in the 1830s and identify Cherokee individuals on various historical lists. There are few original, contemporary documents for 1900 to the present. This PF finds insufficient evidence of substantially continuous identifications of the GTEC petitioner from 1900 to the present. Therefore, the GTEC petitioner does not meet the requirements of criterion 83.7(a).

Criterion (b) requires that a predominant portion of the petitioning group comprise a distinct community from historical times to the present. The evidence demonstrates that petitioner’s ancestors were active participants in Cherokee society before 1838. There is no evidence, however, that after the Cherokee Removal the petitioner’s ancestors established a separate and distinct community of other Cherokee who did not remove, but remained in Georgia, and there is no evidence that they continued to participate in Cherokee society in Lumpkin County. The Davises and their non-Indian neighbors lived together in a rural
neighborhood, called Davis District, west of Dahlonega, Georgia. Only one of these families—"the Davises"—were Cherokee descendants and only their descendants are enrolled in GTEC. Therefore, the GTEC petitioner does not meet criterion 83.7(b).

Criterion (c) requires that the petitioner has maintained political influence or authority over its members as an autonomous entity from historical times until the present. The petitioner’s ancestors were from a politically influential Cherokee family and part of a political network that advanced interests within the Cherokee Nation when it was in Georgia. After the Removal, the petitioner’s ancestors—the Davis family in Georgia—did not establish an autonomous political organization composed of Cherokee who remained in Georgia, nor did they continue to participate in Cherokee political activities in Indian Territory. The petitioner submitted evidence dating between the 1880s and 1925 about the neighborhood church and school, but these institutions were not Indian institutions. Rather, they served Davis descendants and non-Indians, and do not provide evidence of political influence or authority within the petitioner. Although the petitioner named specific individuals as leaders between 1870 and 1950, it did not support these claims with documentation showing political processes within an Indian group. Between 1838 and 1976—138 years—the petitioner has not provided any evidence that the petitioner’s ancestors maintained formal or informal political relationships that advanced issues of interest to a distinct group of Cherokee descendants. From 1976 to the present, the petitioner submitted almost no evidence showing how the petitioner organized activities, dealt with conflict and threats to Indian descendants, or represented the interests of its members other than by seeking acknowledgment and protecting GTEC’s name in court. Therefore, the petitioner does not meet criterion 83.7(c).

Criterion (d) requires a copy of the group’s present governing document, including its membership criteria. The petitioner provided two versions of its 2002 constitution and bylaws, which describe how the group determines its membership and how it governs itself. The GTEC petitioner provided evidence that satisfies the requirements of criterion 83.7(d).

Criterion (e) requires that the petitioner’s membership consist of individuals who descend from a historical Indian tribe or from historical Indian tribes, which combined and functioned as a single autonomous political entity. The current membership list, dated August 10, 2013, which the governing body separately certified, has the required elements. The petitioner has demonstrated that about 90 percent of its members (413 of 458) descend from the historical Cherokee Nation as it existed before the 1838 Removal. Therefore, the GTEC petitioner satisfies the requirements of criterion 83.7(e).

Criterion (f) requires that the membership of the petitioner be composed principally of persons who are not members of any acknowledged North American Indian tribe. The OFA found no members of GTEC enrolled with the Eastern Band of Cherokee Indians, a federally recognized Indian tribe. The OFA found that 13 members of GTEC are enrolled with the Cherokee Nation, a federally recognized Indian tribe. The membership of the GTEC petitioner is composed principally of persons who are not members of any North American Indian tribe. Thus, the GTEC petitioner satisfies the requirements of criterion 83.7(f).

Criterion (g) requires that neither the petitioner nor its members are the subject of congressional legislation that has expressly terminated or forbidden the Federal relationship. No evidence has been found to indicate that the petitioner was subject of congressional legislation to terminate or prohibit a Federal relationship as an Indian tribe. Therefore, the petitioner meets the requirements of criterion 83.7(g).

Based on this preliminary factual determination, the Department proposes to decline to acknowledge the GTEC petitioner as an Indian tribe within the meaning of Federal law. A report summarizing the evidence, reasoning, and analyses for the PF will be provided to the petitioner and interested parties. The PF is available to other parties upon written request as provided by 25 CFR 83.10(h) or available on the Department of the Interior’s Web site at http://www.do.gov. Requests for a copy of the summary evaluation of the evidence should be addressed to the Federal Government as instructed in the ADDRESSES section of this notice.

Publication of this notice of the PF in the Federal Register initiates a 180-day comment period during which the petitioner and interested and informed parties may submit arguments and evidence to support or rebut the evidence relied upon in the PF. Comments on the PF should be addressed to the petitioner and the Federal Government as required by 25 CFR 83.10(i) and as instructed in the ADDRESSES section of this notice by the date listed in the DATES section of this notice.

The regulations, 25 CFR 83.10(k), provide the petitioner a minimum of 60 days to respond to any submissions on the PF received from interested and informed parties during the comment period. After the expiration of the comment and response periods described above, the Department will consult with the petitioner concerning establishment of a schedule for preparation of the FD. The AS–IA will publish the FD of the petitioner’s status in the Federal Register as provided in 25 CFR 83.10(l), at a time that is consistent with that schedule.

Dated: May 6, 2016.

Lawrence S. Roberts,
Acting Assistant Secretary—Indian Affairs.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) and the United States Forest Service (Forest Service) announce the availability of the Final Environmental Impact Statement (EIS) for the Energy Gateway South Transmission Project (Project) and proposed land-use plan amendments (LUPAs). The Final EIS analyzes the potential environmental consequences of granting a right-of-way (ROW) to PacifiCorp (doing business as Rocky Mountain Power) to construct and operate an extra-high voltage (EHV) alternating-current (AC) transmission system.

DATES: BLM planning regulations (43 CFR 1610.5–2) state that any person who meets the conditions as described in the regulations may protest the BLM’s Final EIS/Proposed LUPAs. A person who meets the conditions and files a
