

United States Department of the Interior

OFFICE OF THE SECRETARY

Washington, DC 20240

MAR 11 2013

Honorable Roger Yankton Sr.
Chairman, Spirit Lake Tribe
P.O. Box 359
Fort Totten, ND 58335

Dear Chairman Yankton:

On January 24, 2013 we received the Amended Gaming Compact (Compact) between the Spirit Lake Tribe (Tribe) and the State of North Dakota (State) dated January 3, 2013. We have completed our review of this Compact and conclude that it does not violate the Indian Gaming Regulatory Act of 1988 (IGRA) any other provision of Federal law that does not relate to jurisdiction over gaming on Indian lands, or the trust obligations of the United States to Indians. Therefore, pursuant to delegated authority and Section 11 of IGRA, we approve the Compact. The Compact shall take effect when the notice of our approval, pursuant to Section 11 (d)(3)(B) of IGRA, 25 U.S.C. § 2710 (d)(3)(B), is published in the *Federal Register*.

We interpret Section 3.1(F) and (G) of the Compact to allow the Tribe to engage in sports betting if the Tribe meets one of the exceptions of the Professional and Amateur Sports Protection Act, 28 U.S.C. §§ 3701-3704 (PASPA). The PASPA makes it unlawful for a governmental entity, including an Indian tribe, to sponsor, operate or authorize by law or compact, gaming based on the outcome of professional and amateur sports competitions. This prohibition does not extend to pari-mutuel animal racing or jai-alai games. To be lawful, any prohibited sports gaming pursuant to Section 3.1(F) and (G) of the Compact must come within one of the two exceptions in PASPA which are applicable to Indian tribes.

Under the first exception, the general prohibition does not apply to a state or other governmental entity, including an Indian tribe, to the extent that the sports gaming activity was conducted by that state or other governmental entity between January 1, 1976 and August 31, 1990. The second exception establishes two criteria which must be met to authorize an otherwise prohibited sports betting activity within a state or governmental entity: (1) the activity must actually have been authorized by a statute in effect on October 2, 1991; and (2) the activity must actually have been conducted at some point between September 1, 1989 and October 2, 1991 pursuant to the law of that state or other governmental entity. We are not, however, in a position to verify the factual basis for establishing whether the Tribe comes within one of the two exceptions described above. Therefore, we express no opinion on the matter.

In addition, if the Tribe enters into a management contract for the operation and management of the Tribe's gaming facility, the contract must likewise be submitted to, and approved by the Chairman of the NIGC pursuant to Section 11(d)(9) of IGRA, 25 U.S.C. § 2710(d)(9) and the NIGC's regulations governing management contracts. The Tribe may want to contact the NIGC

for information on submitting the ordinance and the management contract for approval by the NIGC. See 25 CFR Parts 531-539.

Section XXXIII Geographical Scope of Gaming provides that; “This compact shall govern the conduct of Class III games by the Tribe on tribal trust lands within the current exterior boundaries of the Spirit Lake Reservation, which are in compliance with the IGRA... and waters adjacent thereto, together with such lands, and waters adjacent thereto, as may be acknowledged by the parties to be lands and waters of the Spirit Lake Tribe. The Tribe may conduct gaming on adjacent waters, limited to excursion boats offering food service, where passengers may board and unboard only from the Tribe’s marina. This amended compact shall further govern such lands and waters as may be transferred to the Spirit Lake Tribe or acknowledged to be Tribal as a result of any Court determination or agreement between the parties in Devils Lake Sioux v. State of North Dakota...” A similar provision was in the 1999 compact. As stated in our November 17, 1999 approval letter, we understand this to mean “water that is over submerged lands that the Tribe owns.”

I wish the Tribe success in its economic venture.

Sincerely,

KW Kevin K. Washburn
Assistant Secretary – Indian Affairs

AMENDED GAMING COMPACT
BETWEEN THE
SPIRIT LAKE NATION
AND THE
STATE OF NORTH DAKOTA

The Amended Gaming Compact ("Amended Compact") is made and entered into this 3rd day of January, 2013, by and between the Spirit Lake Tribe, formerly known as the Devils Lake Sioux Tribe, (hereinafter referred to as the "Tribe") and the State of North Dakota (hereinafter referred to as the "State").

I. RECITALS.

The Tribe is a federally-recognized Indian Tribe, organized pursuant to the Constitution and By-Laws of the Spirit Lake Tribe, approved by the Commissioner of the Bureau of Indian Affairs, on February 14, 1946, as amended thereafter, and situated on its permanent homeland, with its headquarters at Fort Totten, North Dakota. Pursuant to Article VI of the Tribal Constitution, the Tribal Council is the governing body of the Tribe with constitutional and federal statutory authority to negotiate with state and local governments.

The State, through constitutional provisions and legislative acts, has authorized games of chance and other gaming activities, and the Congress of the United States, through the Indian Gaming Regulatory Act, Public Law 100-497, 102 Stat. 2426, 25 U.S.C. §2701 et seq. (1988) (hereinafter referred to as the "IGRA"), has authorized the Tribe to operate Class III gaming pursuant to a tribal gaming ordinance approved by the National Indian Gaming Commission and a Compact entered into with the State for that purpose. Pursuant to its inherent sovereign authority and the IGRA, the Tribe intends to continue presenting Class III gaming, and the Tribe and State negotiated a Compact under the provisions of the IGRA to authorize and provide for the operation of such gaming. Said Compact was executed on October 7, 1992 and amended on September 29, 1999, by the then serving Tribal Chairman on behalf of the Tribe and the then serving Governor on behalf of the State and became effective when thereafter approved by the United States, Secretary of Interior and publicized in the Federal Register. Said Compact provides for Amendment upon agreement by both parties. The parties believe that amendment at this time would be appropriate.

NOW THEREFORE, in consideration of the covenants and agreements of the parties herein below, the Tribe and the State agree as follows:

II. POLICY AND PURPOSE.

The Tribe and the State mutually recognize the positive economic benefits that gaming may provide to the Tribe and to the region of the State adjacent to Tribal lands, and the Tribe and, the State recognize the need to insure that the health, safety and welfare of the public and the integrity of the gaming industry of the Tribe and throughout North Dakota be protected. In the spirit of cooperation, the Tribe and the State hereby agree to carry out the terms of the IGRA regarding tribal Class III gaming.

The Tribal Gaming Code and regulations of the Tribal Gaming Commission (hereinafter referred to collectively as "Tribal Law"), this Compact, and the IGRA shall govern all Class III gaming

- 20.1 Electronic Game - Definition. "Electronic Game" means a microprocessor controlled device that allows a player to play games of chance, which the outcome may or may not be affected by the player's skill. A game is activated by inserting a token, coin, currency, or other object, or use of a credit, and which awards credit, cash, tokens, replays, or a written statement of the player's accumulated credits and that is redeemable for cash.
- 20.2 Display. Game play may be displayed by video facsimile, or mechanical rotating reels that stop in positions that display the presence, or lack of, a winning combination and pay out and which are predetermined by the software of the game.
- 20.3 Testing.
- A. Designation of a Gaming Test Laboratory. A Tribe may not operate an electronic game, including a bill acceptor, unless the game (or prototype) and bill acceptor have been tested and approved or certified by a gaming test laboratory that they comply with currently accepted gaming test industry standards, either Gaming Laboratories International's standard GLI-11 version 2.1 or an equivalent and that they meet the requirements and standards of this Compact. A gaming test laboratory is a laboratory agreed to and designated in writing by the State and Tribe as competent and qualified to conduct scientific tests and evaluations of electronic games and related equipment. A laboratory operated by or under contract with any State of the United States to test electronic games may be designated.

As requested by the laboratory, the manufacturer shall transport one or more working models of the electronic game (or prototype) and related equipment to a location designated by the laboratory. The manufacturer shall pay for all costs of transporting, testing, and analyzing the model. As requested by the laboratory, the manufacturer shall provide specialized equipment or the services of an independent technical expert to assist the laboratory.
- C. Report of Test Results. At the end of each test, the gaming test laboratory shall provide the State and Tribe a report containing the findings, conclusions, and a determination that the electronic game (or prototype) and related equipment conforms or does not conform to the hardware and software requirements of this Compact. If the electronic game (or prototype) or related equipment can be modified so it can conform, the report may contain recommended modifications. If the laboratory determines that an electronic game (or prototype) conforms, that determination will apply for all Tribes under this Compact.
- D. Modification of an Approved Electronic Game. A Tribe may not modify the assembly or operational functions of an electronic game or related equipment, including logic control components, after testing and installation, unless a gaming test laboratory certifies to the State and Tribe that the modification conforms to the requirements and standards of this Compact.
- E. Conformity to Technical Standards. A manufacturer or distributor shall certify, in writing, to the State and Tribe that, upon installation, each electronic game (or prototype): 1) conforms to the exact specifications of the electronic game (or prototype) tested and approved by the gaming test laboratory; and 2) operates and plays according to the technical standards prescribed in this section.

However, should the Tribe maintain individual or clusters of machines apart from a major casino location, all coin hoppers must be monitored by a computer. Data from the machines must be downloaded to the central on-line management information system daily. The system must generate, by machine, analytical reports of coins and currency in, coins out, actual hold and actual to theoretical hold percentages, and error conditions. The term "error conditions" includes any exterior or interior cabinet door openings, coin-in tilts, and hopper tilts. A Tribe shall prepare system reports at least on a monthly basis and retain the reports for at least three years. The State may inspect such records.

This compartment must be sealed and locked with a key or combination different than the key or combination used for the main cabinet door and cash compartment. The microprocessor compartment may be opened only in the presence of a tribal official or security officer appointed by the Tribe. The key to the microprocessor compartment must be kept by the Tribe in a secure place. "Logic control components" means all types of program storage media used to maintain the executable program that causes the game to operate. Such devices include hard disk drives, PCMCIA cards, EPROMs, EEPROMs, CD-ROMs and similar storage media.

- (i) The storage media must be disabled from being able to be written to by a physical or hardware write disable feature when it is in the machine. It must be impossible to write any contents to the storage media at any time, from an internal or external source.
 - (ii) The Tribe shall affix a strip of numbered security tape to each logic control component or to the lock of the microprocessor compartment within the electronic game. The security tape must be numbered, physically secured, and available to only authorized personnel of the Tribe.
 - (iii) Logic control components must be able to be inspected in the field. The components must be able to be verified for authenticity by using signatures, hash codes, or other secure algorithm, and must be able to be compared on a bit for bit basis.
 - (iv) The supplier of an electronic game shall provide the State and Tribe with necessary field test equipment at no charge for carrying out tests required in (iii) above. Also, if requested by the State or Tribe, the supplier shall provide training on how to use the equipment.
- J. Cash Compartment. The coin and currency compartment must be locked separately from the main cabinet area, and secured with a key or combination different than the key or combination used for the main cabinet door. However, a separate cash compartment is not required for coins that are necessary to pay prizes through a drop hopper. The keys must be kept in a secure location. Except as provided in this section, the compartment into which coins and bills are inserted must be locked. An employee or official of the Tribe may open the cash compartment to collect the cash and shall record the amount collected.
- K. Hardware Switches. No hardware switch may be installed on an electronic game or associated equipment that may alter the game's pay table or payout percentage. Any other hardware switch must be approved by the State and Tribe.
- L. Printing of Written Statement of Credits. For an electronic game that awards credits or replays, but not coins or tokens, a player, on completing play may prompt the game to print a written statement of credits. The game's interior printer must either retain an exact, legible copy of the statement produced within the game or print only one copy to the player and have the ability to retain the information electronically.
- M. Network. A Tribe may operate an electronic game as part of a network of games with an aggregate prize; provided:
 - (i) An electronic game capable of bi-directional communication with external associated equipment must use communication protocol, which ensures that erroneous data will not adversely affect the operation of the game. The local network must be approved by a gaming test laboratory; and

- (ii) If the network links the Tribe's progressive electronic games to another Tribe's progressive games that are located on the other Tribe's Indian reservation, each participating Tribe must have a Class III gaming compact that authorizes the Tribe's gaming to be operated as part of a multi-location network. All segments of the network must use security standards agreed to between the State and Tribe and which are as restrictive as those used by the Tribe for its on-line games.

20.6 Software Requirements.

- A. Randomness Testing. Each electronic game must have a true random number generator that will determine the occurrence of a specific card, symbol, number, or stop position to be displayed on a video screen or by mechanical rotating reels. An occurrence will be considered random if it meets all requirements:
 - (i) Chi-Square Analysis. Each card, symbol, number, or stop position, which is wholly or partially determinative, satisfies the 99 percent confidence limit using the standard chi-square analysis.
 - (ii) Runs Test. Each card, symbol, number, or stop position does not, as a significant statistic, produce predictable patterns of game elements or occurrences. Each card, symbol, number, or stop position will be considered random if it meets the 99 percent confidence level with regard to the "runs test" or any generally accepted pattern testing statistic.
 - (iii) Correlation Analysis. Each card, symbol, number, or stop position is, independently chosen without regard to any other card, symbol, number or stop position, drawn within that game play. Each pair of cards, symbols, numbers, or stop positions are considered random if they meet the 99 percent confidence level using standard correlation analysis.
 - (iv) Serial Correlation Analysis. Each card, symbol, number, or stop position is independently chosen without reference to the same card, number, or stop position in the previous game. Each card, number, or stop position is considered random if it meets the 99 percent confidence level using standard serial correlation analysis.
 - (v) Live Game Correlation. An electronic game that represents a live game must fairly and accurately depict the play of the live game.
- B. Software Requirements for Percentage Payout. Each electronic game must meet the following maximum and minimum theoretical percentage payouts. However, these percentages are not applicable to slot tournaments conducted pursuant to Section 3.1(P):
 - (i) Electronic games that are not affected by player skill must pay out a minimum of eighty percent (80%) and no more than one hundred percent

(100%) of the amount wagered. The theoretical payout percentage will be determined using standard methods of probability theory; and

- (ii) Electronic games that are affected by player skill, such as draw poker and twenty-one, must pay out a minimum of eighty-three (83%) percent and no more than one hundred (100%) percent of the amount wagered. This standard is met when using a method of play that will provide the greatest return to the player over a period of continuous play. These percentages shall not be applicable to slot tournaments conducted pursuant to Section 3.1(P).
- C. Minimum Probability Standard for Maximum Pay. Each electronic game must have a probability of obtaining the maximum payout, which is greater than 1 in 17,000,000 for each play.
- D. Software Requirements for Continuation of Game After Malfunction. Each electronic game must be capable of continuing the current game with all the current game's features after a game malfunction is cleared. This provision does not apply if a game is rendered totally inoperable; however, the current wager and all player credits before the malfunction must be returned to the player.
- E. Software Requirements for Play Transaction Records. Each electronic game must maintain an electronic, electro-mechanical, or computer system, approved by a gaming test laboratory, to generate external reports. The system must record and maintain essential information associated with machine play. This information must be retained for at least thirty (30) days, regardless of whether the machine has electrical power.
- F. No Automatic Clearing of Accounting Meters. No electronic game may have a mechanism by which an error will cause the electronic accounting meters to automatically clear.
- G. Display of Information. The information displayed must be kept under glass or other transparent material. No sticker or other removable item may be placed on the machine face or cover game information.
- H. Display of Rules. The machine must display: 1) the rules of the game before each game is played; 2) the maximum and minimum wagers, amount of credits which may be won for each winning hand or combination of numbers or symbols; and 3) the credits the player has accumulated. However, for an electronic game with a mechanical display, this information must be permanently affixed on the game in a conspicuous location.

XXI. AMENDMENTS TO REGULATORY AND TECHNICAL STANDARDS FOR ELECTRONIC GAMES OF CHANCE.

The State and the Tribe acknowledge the likelihood that technological advances or other changes will occur during the duration of this Compact that may make it necessary or desirable that the

regulatory and technical standards set forth in Sections 20.5 and 20.6 for electronic games of chance be modified to take advantage of such advances or other changes in order to maintain or improve game security and integrity. Therefore any of the regulatory or technical standards set forth in Sections 20.5 and 20.6 may be modified for the purposes of maintaining or improving game security and integrity by mutual agreement of the North Dakota Office of Attorney General and the Tribal Council or its Chairperson, upon the written recommendation and explanation of the need for such change made by either party.

- 32.2 Automatic Extension. The duration of this Compact shall thereafter be automatically extended for terms of ten (10) years upon written notice of renewal by either party on the other party during the final year of the original term of this Compact or any extension thereof, unless the Tribe or the Governor serves written notice of non-renewal within thirty (30) days thereafter, or unless the North Dakota Legislature directs notice of non-renewal, by Bill or Resolution, passed with two-thirds (2/3) majority in each house during the legislative session immediately prior to the expiration of the Compact.
- 32.3 Operation. The Tribe may operate Class III gaming only while this Compact, including any amendment or restatement thereof is in effect.
- 32.4 Successor Compact. In the event that written notice of non-renewal of this Compact is given by one of the parties above, the Tribe may, pursuant to the procedures of the IGRA, request the State to enter into negotiations for a successor compact governing the conduct of Class III gaming activities to become effective following the expiration of this Compact. Thereafter the State shall negotiate with the Tribe in good faith concerning the terms of a successor compact (see § 2710(d)(3)(A) of the Act).
- 32.5 Interim Operation. If a successor compact is not concluded by the expiration date of this Compact, or any extension thereof, and should either party request negotiation of a successor compact, then this Compact shall remain in effect until the procedures set forth in Section 2710(d)(7) of the IGRA are exhausted, including resolution of any appeal.
- 32.6 Cessation of Class III Gaming. In the event written notice of non-renewal is given by either party as set forth in this section, the Tribe shall cease all Class III gaming under this Compact upon the expiration date of this Compact, or upon the date the procedures specified above associated with a successor compact are concluded and a successor compact, if any, is in effect.
- 32.7 Pari-Mutuel Horse Racing Addendum. The duration specified above shall also be applicable to the pari-mutuel horse racing addendum to the Gaming Compact between the Tribe and the State pursuant to Section XVI of said Pari-mutuel Horse Racing Addendum that provides that the term of said Addendum shall be simultaneous with that of the Compact.

XXXIII. GEOGRAPHIC SCOPE OF COMPACT.

This Compact shall only govern the conduct of Class III games by the Tribe on Tribal trust lands within the current exterior boundaries of the Spirit Lake Reservation, which are in compliance with the IGRA, at 25 U.S.C. § 2719, and waters adjacent thereto, together with such lands, and waters adjacent thereto, as may be acknowledged by the parties to be lands and waters of the Spirit Lake Tribe. The Tribe may conduct gaming on adjacent waters, limited to excursion boats offering food service, where passengers may board and unboard only from the Tribe's marina co-located with the Spirit Lake Casino and other locations approved by the State in writing. Gaming must be suspended any time a gaming vessel is within 100 feet of any marina or recreation area other than the Spirit Lake Casino marina. The execution of this Compact shall not in any manner be deemed to have waived the rights of the State or the Tribe pursuant to the aforementioned section of the IGRA or as to the referenced pending litigation. This Compact shall not be construed as

authorizing gaming at any location outside the exterior boundaries of the Tribe's reservation unless such off-reservation location was expressly permitted under the Tribe's gaming compact in effect on August 1, 1997.

XXXIV. AMENDMENT.

The State or the Tribe may at any time and upon proper notification request amendment or negotiations for the amendment of this Compact. Both parties shall negotiate any requested amendment in good faith and reach a determination thereupon within ninety (90) days. Amendments to this Compact shall not become applicable until agreed to by both parties and, if necessary, approved by the United States Secretary of Interior.
