Re: BIA-2016-0007

Dear Director Appel:

I'm writing today on behalf of the Affiliated Tribes of Northwest Indians (ATNI) to reaffirm our support of the Department of the Interior's efforts to modernize the Department's regulations at 25 C.F.R. Part 140.

ATNI believes modernized 25 C.F.R. Part 140 regulations are in the best interest of Indian tribes, the Department as trustee, and will provide more certainty to Tribes, states and local counties with respect to commerce in Indian country.

25 U.S.C. § 262 states "Any person desiring to trade with the Indians on any Indian reservation shall...be permitted to do so under such rules and regulations as the Commissioner of Indian Affairs may prescribe for the protection of said Indians." This broad statutory authority provides the Department the regulatory discretion to speak clearly in support of tribal self-governance over commerce occurring in Indian country. In other words, the Department can modernize its regulations to reflect current practice where Tribal civil regulatory authority is recognized to be at its zenith within Indian country.

In addition, the Department is authorized to address dual taxation, an issue that has handicapped tribal governments through a series of common law decisions made which allow states to intrude on tribes' sovereign tax base.

Addressing dual taxation is extremely important and further justified since state governments provide few services on Indian reservations, but impose taxes on natural resources, retail sales, and personal property (e.g. wind energy-generating facilities). In addition, if tribal governments impose a tax, the resulting dual taxation drives business away. If tribes collect *no* taxes, they suffer inadequate roads, schools, police, courts and health care. Dual taxation effectively undermines the Constitution's promise of respect for tribal sovereignty, and keeps Indian reservations the most underserved communities in the nation.

For these reasons we support modernized Indian Trader Regulations at 25 C.F.R. Part 140 which declare:

- 1) "Any person or business desiring to trade with the Indians on any Indian reservation shall be permitted to do so under the laws of the tribal government."
- 2) "Trade and business activity on trust or restricted fee lands is not subject to any fee, tax, assessment, levy, or other charge imposed by any State or political subdivision."

Tribal governments are taking on increasing levels of government responsibility, but receive inadequate federal funding for roads, schools, police and all government services. Through its proposal to modernize the Indian Trader Regulations, the Department has an opportunity to end centuries of dishonorable commercial dealings, fulfill trust responsibilities, and create a revenue base for tribal governments.

In addition, tax, regulatory, and service agreements with states and local governments would be encouraged but not required. For all of the aforementioned reasons, the Department should take the next step. Initiating a regulatory process will send a strong message to states and local governments that they must deal fairly on taxes and services.

And, finally, our longstanding invitation to Secretary Zinke remains open – we invite the Secretary to the Northwest to hear directly from the Northwest Tribes, their concerns on a variety of issues, including the Indian Trader Regulations and the proposed amendments. ATNI will conduct our Winter convention in Portland, OR on Jan 22-25, 2018 and this would be an opportune time for the Secretary to meet with Northwest Tribal Leaders.
