ENTERPRISE LICENSE AGREEMENT PRODUCT LIST

Avenza Systems, Inc., Federal Supply Schedule Contract No. 140D0419P0030
IKS TUULS, OOO, Federal Supply Schedule Contract No. 140D0418P0044
Environmental Systems Research Institute (ESRI) Federal Supply Schedule Contract No. GS-35F-253CA, Blanket Purchase Agreement 140D0419A0017
Hexagon US Federal, Federal Supply Schedule Contract No. GS-35F-0383K Blanket Purchase Agreement No. G17PA00016

ESRI PRODUCTS

ArcGIS Desktop Concurrent Use Licenses

For concurrent use versions, a license allows ArcGIS for Desktop products to be used on any machine. Each installation must access an ArcGIS License Manager license that contains the appropriate license level for the software seat type (Advanced, Standard, or Basic). The License Manager, installed on the network, dictates the number of copies of Basic, Standard, or Advanced license seat type that can be run simultaneously.

Part No.	Product Description (for more details on products, refer to www.esri.com/products)
PKG 1	ArcGIS Desktop Advanced (formerly ArcInfo) Concurrent Use License – Includes 3D Analyst, Spatial Analyst, Geostatistical Analyst, Publisher, Network Analyst, Schematics, and Tracking Analyst
	Optional Extensions for Concurrent Use (for all license levels)
	APL002 ESRI® Defense Mapping
	APL022 ESRI® Production Mapping
	APL031 ArcGIS for Aviation: Airports
	APL035 ArcGIS for Aviation: Charting
	APL040 ArcGIS for Maritime: Charting
	APL044 ArcGIS for Maritime: Bathymetry

ArcGIS Desktop Single Use Licenses

Single use Desktop licenses do not require an ArcGIS License Manager. Installation requires a provisioning file for each machine, which will be provided with your shipment.

Part No.	Product Description (for more details on products, refer to www.esri.com/products)
PKG 4	ArcGIS Desktop Advanced (formerly ArcInfo) Single Use License – Includes 3D Analyst, Spatial Analyst, Geostatistical Analyst, Publisher, Network Analyst, Schematics, and Tracking Analyst
	Optional Extensions for Single Use (for all license levels)
	APL003 ESRI® Defense Mapping
	APL023 ESRI® Production Mapping
	APL032 ArcGIS for Aviation: Airports
	APL036 ArcGIS for Aviation: Charting
	APL041 ArcGIS for Maritime: Charting
	APL045 ArcGIS for Maritime: Bathymetry

Software for Non-Editing Users

For users that do not require editing capabilities, please consider ordering ArcReader rather than a concurrent or single use license. ArcReader is a free, easy-to-use desktop mapping application that allows users to view, explore, and print maps and globes. Anyone with ArcReader can view high-quality interactive maps authored by an ArcGIS for Desktop product and published with the ArcGIS Publisher. You can download ArcReader at <http://www.esri.com/software/arcgis/arcreader/download>.

ArcGIS Pro Licenses

ArcGIS Pro software can be installed on the same machine as your ArcGIS Desktop software. The three licensing options available with ArcGIS Pro through the ELA Program are listed below. Please use the ArcGIS Pro Order Form to make your selection.

Named User License	The ArcGIS Pro license is assigned to individual users within Portal for ArcGIS by an organization administrator. Please indicate the number of licenses needed and the MAC address of the server hosting your Portal for ArcGIS software.
Concurrent Use License	Your machine points to a License Manager Server for license authorization from a shared pool of licenses. Select Advanced, Standard or Basic functionality.
Single Use License	These licenses are authorized on a single machine. Anyone with access to that machine can use ArcGIS Pro on or off the network.

Please note **ArcGIS Pro can only run on a 64-bit system**. For additional system requirements and information, please go to <http://pro.arcgis.com/en/pro-app/get-started/arcgis-pro-system-requirements.htm> or <http://pro.arcgis.com/en/pro-app/>.

ArcGIS Enterprise Licenses

The four components of ArcGIS Enterprise are ArcGIS Server, Portal for ArcGIS, ArcGIS Data Store and ArcGIS Web Adapter. ArcGIS Server and Portal for ArcGIS require separate licenses and must be requested separately. Data Store and Web Adapter can be installed without a separate license.

ArcGIS Server Licenses - There are two levels to choose from, Enterprise and Workgroup.

- **Enterprise Server:** This level is designed to run and optionally deploy on multiple machines and on a user-defined multiuser database (IBM DB2, Informix Dynamic Server, Microsoft SQL Server, Oracle, or PostgreSQL). The Enterprise level server supports unlimited simultaneous connections to a multiuser geodatabase and has unlimited storage capacity.
- **Workgroup Server:** This level is designed and limited to run on a single machine and includes SQL Server Express 2008 R2 database engine. The Workgroup level server supports 10 simultaneous connections to a multiuser geodatabase and has 10 GB of data storage on a multiuser geodatabase.

Please note **ArcGIS Enterprise can only run on a 64-bit system**. For additional system requirements and information, please go to <https://enterprise.arcgis.com/en/system-requirements/latest/windows/arcgis-server-system-requirements.htm>

Enterprise Server Products

Part No. **Product Description** (for more details on products, refer to www.esri.com/products)

SVR-OEA **ArcGIS Enterprise Server Advanced** (*includes Network Analyst, 3D Analyst, Schematics, Geostatistical Analyst, Spatial Analyst, Workflow Manager, and DataReviewer*)

Optional Extensions for Enterprise Server Advanced

APL053	ESRI® Production Mapping
APL063	ESRI® Defense Mapping
APL077	ArcGIS for Maritime: Bathymetry
APL078	ArcGIS for Maritime: Charting

Workgroup Server Products

Part No. **Product Description** (descriptions of these products can be found at <http://www.esri.com/products>)

SVR-OWA **ArcGIS Workgroup Server Advanced** (*Includes Network Analyst, 3D Analyst, Schematics, Geostatistical Analyst, Spatial Analyst, and Workflow Manager*)

Optional Extensions for Workgroup Server Advanced

APL153	ESRI® Production Mapping
APL163	ESRI® Defense Mapping
APL077	ArcGIS for Maritime: Bathymetry
APL078	ArcGIS for Maritime: Charting for Server

Optional ArcGIS Server Products (must be ordered separately from Enterprise Server or Workgroup Server)

Part No.	Product Description (descriptions of these products can be found at http://www.esri.com/products)
SVR-GEO	ArcGIS GeoEvent Server
SVR-IMG	ArcGIS Image Server
SVR-MON	ArcGIS Monitor for ArcGIS Server

Portal for ArcGIS

Part No. Product Description (descriptions of these products can be found at <http://www.esri.com/products>)

POR001 Portal for ArcGIS

In order to use Portal for ArcGIS software, you will need an Enterprise Server Advanced license or a Workgroup Server Advanced license. There are two types of Portal seats available. You may have all of one seat type or a combination of both. Please indicate on your software order form which type(s) and the number of Portal seats you are requesting.

Viewer—Viewers can view items that are shared with them by other Portal for ArcGIS users. This user type is ideal for members of an organization who need to view Portal for ArcGIS content in a secure environment. Viewers can't create, edit, share, or perform analysis on items or data. This user type includes the Essential Apps Bundle.

Creator—Creators have all the capabilities of the Viewer user type, plus the ability to create content, administer the organization, and share content for use in Essential Apps, Field Apps, and Office Apps. The Creator user type is designed for those who need to create web maps and apps, perform in-depth spatial analysis using the analysis tools in the portal, and work with data using field apps such as ArcGIS Collector. This user type includes the Essential Apps, Field Apps, and Office Apps bundles.

ArcGIS Online (AGOL) BIA Access Only (refer to page 5 for Tribal Access options)

BIA staff may use AGOL and all its capabilities. You must assure that data stored or used in AGOL are at the FISMA "low" level (no personally identifiable information, no licensed or otherwise protected or sensitive data, etc.). The BIA Organizational Account sits on the ESRI cloud via Amazon. Due to the issues of FISMA compliance and data sitting on a cloud service outside of the BIA's trust network, only data that is currently available publicly will be allowed to be hosted on the account. Trust data, PII and anything that is sensitive in nature according to the BIA will not be hosted on AGOL and will not be posted by the users within the organization. Please contact the Geospatial Support Help Desk at 1-877-293-9494 or at geospatial@bia.gov to request access.

ArcGIS Insights "is a data analytics workbench that offers spatial and nonspatial analysis capabilities to explore data and deliver powerful results." For more information, go to <https://doc.arcgis.com/en/insights/get-started/insights-overview.htm>. Please indicate how many seats you need on the order form.

ArcGIS Software for Developers

Part No.	Product Description (descriptions of these products can be found at http://www.esri.com/products)
RUN001	ArcGIS Runtime Standard Single Use Deployment License (Includes 3D Analyst, Spatial and Network)
ENG 1	ArcGIS Engine Concurrent Use (Includes 3D Analyst, Geodatabase Update, Maplex, Network, Schematics, Spatial Analyst, Tracking Analyst)
ENG 2	ArcGIS Engine Single Use (Includes 3D Analyst, Geodatabase Update, Maplex, Network, Schematics, Spatial Analyst, Tracking Analyst)
EDN001	ESRI® Developer Network (Requires global account with ESRI. Go to www.esri.com to set up a free account.) EDN licenses are solely for the purposes of research, development, testing, and demonstration of your application. Each EDN subscription can only be used by a single authorized developer. <ul style="list-style-type: none">• ArcGIS Engine (Single Use) includes ArcGIS Engine Developer Kit, Spatial Analyst, Data Interoperability, Geodatabase Edit, Tracking Analyst, Schematics, 3D Analyst• ArcGIS for Server (Workgroup or Enterprise) includes Portal, 3D Analyst, Spatial Analyst, Geostatistical Analyst, ESRI® Defense Mapping, Schematics, Data Interoperability, Network Analyst, Image Extension, Data Reviewer, Workflow Manager, GeoEvent, ESRI® Production Mapping, INSPIRE, Esri Roads and Highways, Maritime• ArcGIS for Desktop (Single Use) (includes ArcGIS Online (single named user), ArcGIS Pro (one license), ESRI® City Engine 2015, Network Analysis, Spatial Analyst, 3D Analyst)
ENG101	ESRI® CityEngine Advanced Concurrent Use License (Windows 64-bit)
ENG 106	ESRI® CityEngine Advanced Single Use License (Windows 64-bit)
ENG116	ESRI® CityEngine Basic Single Use License (Windows 64-bit)

MOBILE MAPS, IMAGERY, AND GIS TOOLS

Avenza Pro

This mobile application that allows you to download your maps over a Wi-Fi or cellular network. Each user will need to register their device using the subscription ID. Please contact the Geospatial Support Help Desk at geospatial@bia.gov to request the installation instructions and the authorization code.

Digital Globe

Access to high-resolution imagery, data and analysis. For more information, go to <https://www.digitalglobe.com/>. Please contact the Geospatial Support Help Desk at 1-877-293-9494 or geospatial@bia.gov to request access.

XTools Pro

Over 80 general usage tools that extend the standard ArcGIS Desktop functionality. Go to <https://xtools.pro/en/overview/> for more information on XTools Pro. Please complete the XTools Pro order form and include the names and contact information of the individuals who will be using the software.

PRODUCTS NOT AVAILABLE UNDER THE ELA

ArcGIS Online (AGOL) Tribal Access

1. If you are an authorized ArcGIS user under an active BIA ELA account, you can access AGOL through GeoPlatform. Please go to <https://www.geoplatform.gov/arcgis-online-support/> to sign up and get access to AGOL right away. Once you have your GeoPlatform.gov user name and password, you will be able to access AGOL by signing in at <https://geoplatform.maps.arcgis.com/home/signin.html>
2. Individuals may be able to gain access to ArcGIS Online (AGOL) through the National Tribal Geographic Information Support Center (NTGISC) also known as Tribal GIS®. AGOL access is available to members of NTGISC, membership is available at no cost for Tribal employees. This access is made possible through NTGISC's independent ELA and agreements with Esri. AGOL accounts obtained through NTGISC will be slightly limited in comparison to full ArcGIS Online subscriptions per the terms set forth by NTGISC & Esri. Please contact NTGISC at www.tribalgis.com 918-937-4487, or email gcouch@tribalgis.com for more information.
3. An ArcGIS Public Account with limited AGOL usage and capabilities is available for free through ESRI. With a free public account from ESRI, you can create, store and manage maps, scenes, layers, and apps, and share them with others. Please go to <https://www.arcgis.com/home/signin.html> to create a public account.
4. If you require full capabilities of ArcGIS Online and would like to purchase your own AGOL organization license/subscription, please contact Jason Langlely, ESRI Sales Representative, 1-909-793-2853, ext. 1-4549, jlanglely@esri.com.

ArcPad

ArcPad is not available under the ELA program. Please contact Lucy Castro, US DOI-BIA Sales Representative, 1-800-447-9778, ext. 4542, lcastro@esri.com

ERDAS IMAGINE

ERDAS IMAGINE is not available under the ELA program. However, a blanket purchase agreement with Hexagon US Federal provides active ELA participants access to a full suite of geospatial products at a reduced cost. ERDAS IMAGINE is a raster-based software designed to extract information from images. Go to www.hexagongeospatial.com/products/power-portfolio/erdas-imagine for more information. Please contact the Geospatial Support Help Desk at 1-877-293-9494 or geospatial@bia.gov for information on how to obtain this software.
