Disclaimer:
The Bureau of Indian Affairs (BIA) attempts to use the most current and complete geospatial data available. Geospatial data accuracy varies by theme on the maps. These maps are intended as a synoptic view of present land and fire management conditions as of the date of publication. Using these maps or data for other than their intended purpose may yield inaccurate or misleading results. The BIA reserves the right to correct, update or modify geospatial inputs to these maps without notification. The BIA shall not be held liable for improper or incorrect use of the maps and data described and/or contained herein. Other than their use as an expression of the Fire Management Plan intent and practices, these maps and data are not legal documents and are not intended to be used as such. The information contained in these maps and data is dynamic and is updated as needed. It is the responsibility of the user to use the maps and data appropriately and consistently within the limitations of geospatial data in general and these data in particular. The BIA gives no warranty, expressed or implied, as to the accuracy, reliability, or completeness of these maps and data. It is strongly recommended that these maps and data are directly acquired from the BIA and not indirectly through other sources which may have changed the maps and data in some way. No warranty expressed or implied is made regarding the utility of the maps and data for general or scientific purposes, nor shall the act of distribution constitute any such warranty. This disclaimer applies both to individual use of the maps, data and their aggregate use with other data. Utilizing the maps and/or data from this page indicates your understanding and acceptance of the terms described above.
