

Real Estate Services

Improving Indian Trust Ownership Information for approximately 56 million acres of land in trust for Tribes and individual Tribal members.

**WE ENSURE
TRUST &
TRIBAL
OWNED
LANDS**

ARE PROTECTED,

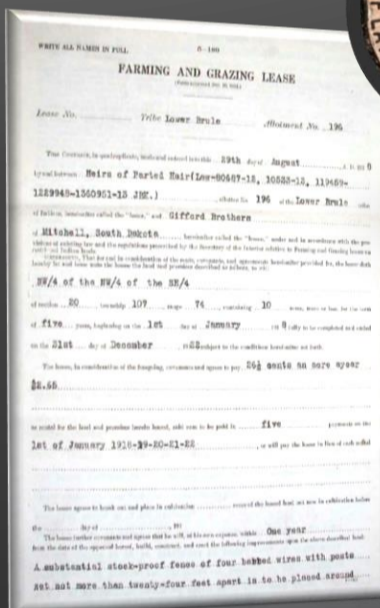

MANAGED, ACCOUNTED FOR,

DEVELOPED,

& UTILIZED IN A TIMELY

AND EFFICIENT MANNER

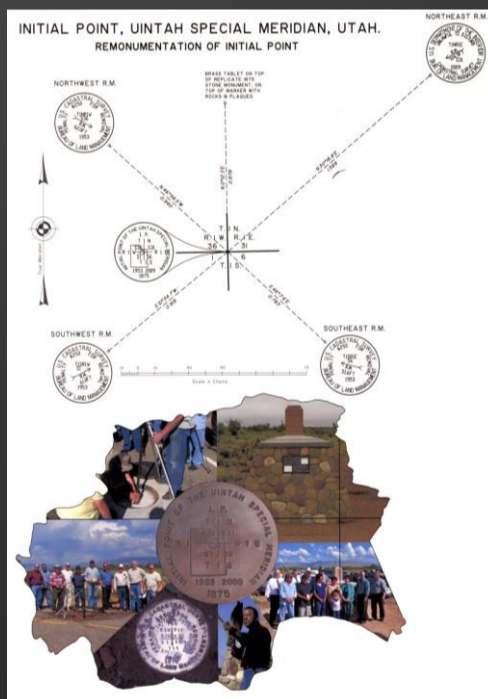

Realty involves the processing of a multitude of transactions which range from the functions of Cadastral Survey; Acquisition and Disposal; Lease Compliance; Leasing and Permitting for both surface and sub-surface leases and permits; Unresolved Indian Rights; and Rights-of-way.

Lease Compliance

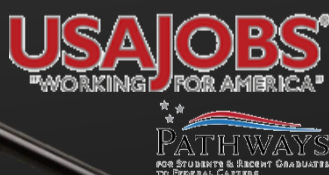

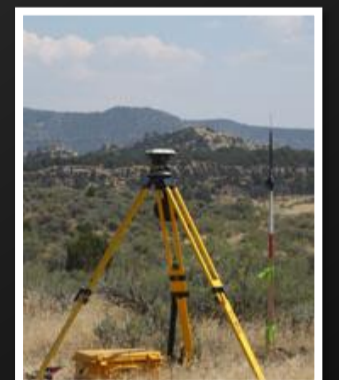

The program ensures that lease activities on trust and restricted Indian lands and their assignees are in compliance with the terms of the leases.

These activities may result in the recovery of funds for the Indian landowners through the collection of late payment penalties and interest, damages or bond forfeitures.

Cadastral Services

Determination of the legal boundaries of Indian trust lands is essential to ensure that property and resources are properly accounted for and protected, including reestablishing the boundaries executed in the original survey or restore boundary monuments lost or deteriorated since the original survey.

Find your next steps to a brighter more fulfilling future!
