MEMORANDUM

TO: Superintendent, Fort Berthold Agency

FROM: ^{Acting} Regional Director, Great Plains Region

SUBJECT: Supplemental to Environmental Assessment

A Categorical Exclusion has been completed in compliance with the regulations of the National Environmental Policy Act (NEPA) of 1969, as amended. The proposed Supplemental Categorical Exclusion is for information tiering off of an existing Environmental Assessment for EOG Resources, Inc., to authorize one additional well on the Riverview 01-32H well pad. No new surface disturbances will be associated with the proposed action.

All the necessary requirements of the National Environmental Policy Act have been completed. Attached for your files is a copy of the Categorical Exclusion.

If you have any questions, please call Marilyn Bercier, Regional Environmental Scientist, Division of Environment, Safety and Cultural Resources Management, at (605) 226-7656.

EXCEPTION CHECKLIST FOR BIA CATEGORICAL EXCLUSIONS

Project: Addendum to Environmental Assessment to Authorize One Additional Well on the Riverview 01-32H (Well Pad)
Date: August 1, 2011

Nature of Proposed Action: Is to authorize EOG Resources, Inc. (EOG) to drill one additional well on the approved Riverview 01-32H well pad of the Bakken Formation. There will be no additional surface disturbance to the well pad or access road as the result of drilling one additional well from previous approved location. This document is tiered to an Addendum to Environmental Assessment to Authorize One Additional Well on the Riverview #01-32H Well Pad (July 2011)

Exclusion category and number: 516 DM 10.5 F (1)

Evaluation of Exceptions to use of Categorical Exclusion:

1. This action would have significant adverse effects on public health or safety. No Yes
2. This action would have an adverse effect on unique geographical features, such as wetlands, wild or scenic rivers, refuges, floodplains, rivers placed on nationwide river inventory, or prime or unique farmlands. No Yes
3. The action will have highly controversial environmental effects. No Yes
4. The action will have highly uncertain environmental effects or involve unique or unknown environmental risks. No Yes
5. This action will establish a precedent for future actions. No Yes
6. This action is related to other actions with individually insignificant, but cumulatively significant environmental effects. No Yes
7. This action will affect properties listed or eligible for listing in the National Register of Historic Places. No Yes
8. This action will affect a species listed, or

proposed to be listed as endangered or threatened.

No X Yes _____

9. This action threatens to violate federal, state, local or tribal law or requirements imposed for protection of the environment.

No X Yes _____

10. This action will have a disproportionately high and adverse effect on low income or minority populations.

No X Yes _____

11. This action will limit access to, and ceremonial use of Indian sacred sites on federal lands by Indian religious practitioners, or significantly adversely affect the physical integrity of such sacred sites.

No X Yes _____

12. This action will contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area, or may promote the introduction, growth, or expansion of the range of such species.

No X Yes _____

A "yes" to any of the above exceptions will require that an EA be prepared.

NEPA Action - - - CE X EA _____

1. Purpose and Need for the Proposed Action

EOG Resources, Inc. (EOG) is proposing to drill a Bakken Formation oil and gas well on the Fort Berthold Indian Reservation to evaluate and possibly develop the commercial potential of natural resources. Developments have been proposed on land held in trust by the United States in McKenzie County, North Dakota. The Bureau of Indian Affairs (BIA) is the surface management agency for potentially affected tribal lands and individual allotments. The BIA also holds title to subsurface mineral rights. The economic development of available resources and associated BIA actions are consistent with BIA's general mission. Leasing and development of mineral resources offers substantial economic benefits to the Three Affiliated Tribes of the Mandan, Hidatsa, and Arikara Nation and to individual tribal members.

The purpose of the proposed action is to authorize EOG to drill a second well (Riverview 102-32H) to explore the potential of the Bakken Formation, on the approved Riverview 01-32H well pad.

2. Authorities

Oil and gas exploration and development activities are conducted under authority of the Indian Mineral Leasing Act of 1938 (25 United States Code [USC] 396a, et seq.), the Indian Mineral Development Act of 1982 (25 USC 2101, et seq.), and the Energy Policy Act of 2005 (42 USC 15801, et seq.).

3. Legal Land Description for Proposed Action

The well pad is located 19.2 miles north of Mandaree, North Dakota, in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 152 North, Range 94 West, McKenzie County, North Dakota (Figure 1). The proposed Riverview 102-32H well will have a bottom hole located approximately 4,746 feet south and 68 feet east of the surface location, in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32, Township 152 North, Range 94 West, McKenzie County.

4. Scope of Work for Proposed Action

EOG proposes to drill a second well, which will enter the Bakken Formation, on the approved Riverview 01-32H well pad. There will be no additional surface disturbance to the existing well pad or access road.

5. Resource Surveys

SWCA Environmental Consultants (SWCA) conducted a cultural resource inventory of this well pad and associated access road using an intensive pedestrian methodology. Approximately 12.1 acres were inventoried for the well pad on October 14, 2009 (Higgins 2009¹). No historic properties were located that appear to possess the quality of integrity and

¹ Higgins, Courtney 2009. A Class I and Class III Cultural Resource Inventory of the EOG Resources, Inc. Riverview 01-32H Well Pad and Access Road, Fort Berthold Indian Reservation, McKenzie County, North Dakota (November 17, 2009).

meet at least one of the criteria (Title 36 Code of Federal Regulations 60.6) for inclusion on the National Register.

SWCA conducted natural resource surveys for threatened and endangered species, migratory birds, bald and golden eagles, and wetlands on October 14, 2009. Representatives from the BIA and Bureau of Land Management were present during the site visit. No protected species were observed during the survey.

6. Applicable National Environmental Policy Act (NEPA) Document(s)

Environmental Assessment: *EOG Resources, Inc. Proposed Nine Exploratory Wells: Mandaree 02-09H, Mandaree 04-15H, Mandaree 05-16H, Mandaree 06-20H, Mandaree 12-07H, Bear Den 08-21H, Clarks Creek 01-21H, Clarks Creek 03-08H, and Riverview 01-32H (January 2010).*

7. NEPA Adequacy Criteria

This document has identified the above-mentioned previously prepared NEPA document, which adequately describes the environmental consequences of the newly proposed action described herein, and meets the following NEPA Adequacy Criteria.

1. The proposed action is substantially the same action and at the site specifically analyzed in the existing NEPA document.
2. The range of alternatives is reasonable with respect to the current proposed action in the existing NEPA document, which appropriately considers and analyzes current environmental concerns, interests, and resource values.
3. The existing analysis and conclusions are adequate in the existing NEPA document. The analysis is still valid in light of new studies or resource assessment information.
4. The methodology and analytical approach used in the existing NEPA document continues to be appropriate for the proposed action.
5. The direct and indirect impacts of the proposed action are unchanged from those identified in the existing NEPA document.
6. The cumulative impacts that would result from implementation of the proposed action are unchanged from those analyzed in the existing NEPA document.
7. A 30-day comment period involving public input and interagency review was used in the development of the existing NEPA document.
