INDIAN AGENCY

Sir - I am four score years old and have spent more than half that time in the oil-field business all in Osage County, Oklahoma.

As I read the proposed new regulations, I am astounded! Who on earth would think that making all the producers in Osage County pay royalty on money they don't receive? ~~What?~~ Wouldn't it be more effective to put pressure on the purchaser to pay the price based on the New York Merc. Then both the Osage Tribe + Osage Producers would both benefit from a fair + equal solution!

As to other regulations, it seems most of them are going to be almost certainly detrimental to the Osage producers and in the

2

near future also detrimental
to the Osage Nation !!

These regulation probably won't
affect me personally because
I am about finished! When
one gets old enough to be called
distinguished he is just about
extinguished!!

Surely if we all work together
we can come up with some
better solutions!!

Sincerely,
Buz Glenn
