Updates to Federally Recognized Tribal Land Boundary Data

This map is prepared strictly for survey, engineering, and planning purposes. It does not have land held in trust or restricted property, nor does it contain survey data and original legal data with the exception of data that is clearly indicated on the map. The map uses the Lambert Azimuthal Equal Area projection, centered on the 90th meridian. Scale is 1:4,250,000.

Indian Lands of Federally Recognized Tribes of the United States
