Comment, Petition 405:

I have read and understood that my tribe, the Tripanick Nansemond Family Indian Nation, has extensively researched our family line, and I am proud to be involved. The history of our indigenous Bass lineage is a wonderful heritage, our ancestors having much courage and strength to keep our family alive. The documents show the truth of our family history and what we had to endure. I hope that we will receive recognition and have a place to call home once again.

Thank you for your time.

Sincerely, [REDACTED]

Irida Jones Brown
