I support Petitioner # 405 for the "Tripanick Nansemond Family Indian Tribe" for Federal Recognition. I have read the entire document and find that the information contained is factual based on my research.

The history presented is authentic and documented based on my individual personal research.

All the points and individual statements are backed and verified by historical documentation to the best of my knowledge.

In my opinion the Required Criterion of 25 CFR Part 83.11 has been met.

The writing and verbiage makes the text easy to read and understand in addition to being informative. The maps are great assets for explanation and verification.

Signed,

Rodney Ward
