				Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following: Documents sufficient to account for all documents or finalized reports submitted to the U.S. Government Accountability Office (GAO) mentioning 'Antideficiency Act' or 'Antideficiency Act Report.' Search Instructions: Please limit all searches in response to this Request from January 1, 2021, to the present. Please include the full email chain and attachments relevant to any responsive documents to provide further context. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or op-in pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. The terms "pertaining to," "referring," "relating," or "concerning" with respect to any given subject means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is in any manner whatsoever pertinent to that subject. The term "record" means any written, recorded, or graphic matter of any nature whatsoever, regardless of how recorded, and whether original or copy, including, but not limited to, the following: memoranda, reports, expense reports, books, manuals, instructions, financial reports, working papers, records, notes, letters, notices, confirmations, telegrams, receipts, appraisals, pamphlets, magazines, newspapers, prospectuses, inter-office and intra-office communications, electronic mail (emails), MMS or SMS text messages, instant messages, messaging systems (such as iMessage, Microsoft Teams, WhatsApp, Telegram, Signal, Google Chat, Twitter direct messages, Lync, Slack, and Facebook Messenger), contracts, cables, telexes, notations of any type of conversation, telephone call, voicemail, meeting or other communication. Please comply fully with 5 U.S.C. § 552(b). Accordingly, without limitation to the foregoing, if any portion of this request is denied for any reason, please provide written notice of the records or portions of records that are being withheld and cite each specific exemption of the Freedom of Information Act on which the agency relies. Moreover, to the extent that responsive records may be withheld in part produce all reasonably segregable portions of those records. Additionally, please provide all responsive documents even if they are redacted in full. This request is primarily and fundamentally for non-commercial purposes. As an investigative columnist and author, my request is in the public interest to inform the public regarding the agency's policies and procedures on the national stage relevant to domestic policy issues. Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following: From the timeframe of January 20, 2021 to present, all of the following records from JAMES MAYSONETT, ADMINISTRATIVE JUDGE, INTERIOR BOARD OF INDIAN APPEALS: All sent/received SMS, Signal, Whatsapp, or Wicker messages mentioning 'FOIA' OR 'Investigation' OR 'OIG' OR 'delet' OR 'Interview' OR 'agent'. Search Instructions: For potentially responsive documents, please include the full communication email chain, and all attachments in order to provide surrounding context. Please search all text, SMS, or messaging application messages that would potentially be responsive to the request. In the event that the custodian did not retain messages in accordance with the Federal Records Act and various disposition authorities, please explicitly state that in the response. Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following: Documents sufficient to account for: 1) Documentation or records identifying any personnel who transitioned from Schedule C appointments to SES positions within the last year, including the dates and circumstances of such transitions. 2) A complete list of all SES employees hired in the last year, or promoted to SES in the last year. Copies of any SF-50 forms for the individual reflecting any change in position, title, or salary, including when the employee starts or leaves a position. 3) The most recent organizational and hierarchy charts published or disseminated internally by the agency or subordinate organizational entity. Search Instructions: Please limit all searches in response to this Request from January 1, 2024, to the present. Please include the full email chain and attachments relevant to any responsive documents to provide further context. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. Preserve filenames/metadata (Region, issuing office, effective date, supersession status). Names/signatures may be redacted where legally necessary; release titles, units, authorities, limitations, thresholds, status, dates. Subject: Freedom of Information Act Request – Records Concerning BIA Identification Card Eligibility and Issuance

Dear Secretary Burghum:

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I respectfully request copies of records maintained by the Department of the Interior, the Bureau of Indian Affairs (BIA), or any component reasonably likely to possess responsive records concerning the requirements, standards, policies, procedures, and guidance governing the issuance of Bureau of Indian Affairs identification cards to individuals who are descendants of federally recognized Native American tribes. I met him at the CVS Pharmacy where he works (or (b) (5)), his name is (b) (5). If you could cc him on this request in your email, I would be grateful.

I submit this request because I am attempting to assist an individual who is a descendant of Native Americans in understanding the Department's eligibility requirements and administrative processes for obtaining a BIA identification card. My objective is simply to better understand the governing policies so that I may help ensure any future application is complete, accurate, and consistent with applicable law and Department guidance. I have no intent to seek preferential treatment or to circumvent established procedures; rather, I seek transparency regarding the standards the Department applies.

Specifically, I request:

1. Current policies, manuals, standard operating procedures, or guidance governing eligibility for BIA identification cards.

2. Records describing what documentation may be accepted to establish eligibility, including, but not limited to, Certificates of Degree of Indian Blood (CDIBs), tribal enrollment documentation, lineal descent records, birth records, and genealogical evidence.

3. Records describing the responsibilities of BIA field offices in processing requests for BIA identification cards.

4. Any memoranda, policy interpretations, or guidance issued since January 1, 2015, concerning eligibility determinations for descendants of members of federally recognized tribes.

5. Publicly releasable training materials used by BIA personnel regarding the processing or issuance of BIA identification cards.

6. Any publicly releasable guidance describing the relationship, if any, between tribal enrollment, CDIB issuance, and eligibility for a BIA identification card.

If any portion of this request is exempt from disclosure, please release all reasonably segregable non-exempt portions of the responsive records

			Department of the Interior		Under the Freedom of Information Act, 5 U.S.C. 552, I request copies of the examination, payments operations, financial reconciliation, and complaint handling records described below.	
			I am building a research corpus of real working documents, so what I need is the ordinary operating record rather than published or promotional material. Two things drive the value: the file being the native electronic one the agency actually uses, and related records arriving matched to each other rather than as separate piles. Both are spelled out below. The request is numbered so you can process, narrow, or deny any item independently, and I would rather receive items 1 and 2 quickly than wait for everything at once.			
			1. THE INDEX FIRST. Before any document production, please provide whatever file inventory, records schedule, data dictionary, or system report already describes the material below. A directory listing, a records retention schedule covering these series, or an export of file names and dates is enough. I ask for this first because it lets me narrow everything that follows to a specific, cheap request rather than a broad one, and because it is usually a report the system already generates.			
			2. PREVIOUSLY RELEASED RECORDS. Please include any records on these subjects that have already been processed and released under a prior FOIA request. Those are already reviewed, so they should be the fastest and least expensive part of this request. If your office maintains a log of processed requests, the log itself is responsive.			
			3. EXAMINATION AND REVIEW MATERIAL. Examination procedure manuals, review guides, worksheet templates, testing checklists, and sampling methodology documents used by the bureau's oversight, audit, or compliance staff. Blank templates and completed redacted examples are both useful, and blank templates raise no privacy question at all.			
			4. PAYMENTS AND SETTLEMENT OPERATIONS IN SPREADSHEET FORM. 			Department of the Interior	
			is trying to recover grazing permits, permits and leases from Land Uses Permit on these people (b) (6) On Hold-Other I am a historian of the American West with a particular interest in the history of wild horses and the implementation of the Wild Free-Roaming Horses and Burros Act of 1971. I am researching the history of the Salt River horse herd in Arizona and the initial implementation of the 1971 Act on the adjoining Tonto National Forest. I am seeking BIA records, including records of the Salt River Agency and Western Regional Office, concerning horses along the Lower Salt River, Saguaro Lake, and adjoining portions of the Tonto National Forest between December 15, 1971 and December 31, 1975. In particular, I seek records concerning Forest Service inventories or surveys of horses, including the survey reportedly conducted in or around 1973; communication with the Forest Service concerning horses in this area; identification, branding, or claims of ownership of horses encountered during these surveys; horses reportedly claimed by stockmen or residents of adjoining Tribal lands; roundups, removals, retrieval, or return of such horses; livestock trespass involving horses; and communication with the Salt River Pima-Maricopa Indian Community or Fort McDowell concerning these matters. Later Forest Service accounts state that horses encountered during early implementation of the 1971 Act were identified or claimed as belonging to stockmen from adjoining Tribal lands. I am seeking the contemporaneous records underlying that account, including documentation identifying who made such claims, how ownership was established, and what subsequently happened to the horses. If responsive records have been transferred to the National Archives or another federal repository, I would appreciate information identifying the repository, record group, series, accession, or other information necessary to locate them. This request is for scholarly historical research. Electronic copies are preferred. DOI-2026-008335	01/18/2025	08/26/2026 -	I also request incident or person specific data Indian Affairs has of missing people, whether related to Indian country or not. As I understand it, the "Missing and Murdered Indigenous People" phenomenon made Indian Affairs or Department of Interior in general to spend considerable amount of resources to investigating missing people during last 10 years, so I request the actual data of missing people they have gathered and also documents summarizing or other ways describing the conclusion they have made of the data, most importantly on the issue on how Native Americans compare to the general population or people of other races in terms of missing and murdered people. In particular, I request any documents that suggest Native Americans are meaningfully over- or underrepresented as victims of homicide, kidnapping or sex trafficking and similarly documents that suggest they are over- or underrepresented as missing people and how this could relate to such crimes.
