I am requesting to see any correspondence between non-Native business interests or their representatives (e.g., companies such as corporations, LLCs, and/or partnerships; Chambers of Commerce; or attorneys or lobbyists who represent such companies or chambers of commerce) and the BIA. I am studying the role that these private business interests have played in the development and "practice" of federal Indian law and policy.□

For correspondence concerning contracts with the BIA, I would like to request a sample of one such contract every odd-numbered year from 1970 through 2024 (or as close to the present as FOIA will allow). With respect to correspondence concerning a contract with the BIA, I would prefer to see materials related to an energy company or other extractive industry for at least some of the years sampled, but any industry will be fine.□

For correspondence that does NOT concern contracts with the BIA, I would like to request all such correspondence from 1970 through 2024 (or as close to the present as FOIA will allow).□

I can begin reviewing digitized items at any time. For correspondence that does not exist in digitized form, I would like to request access to the physical copies of those documents in May 2025 in Washington, DC. I plan to visit DC for two weeks in mid-May 2025.□

Thank you for your help with this request! (Date Range for Record Search: From 01/01/1970 To 12/31/2024)

Good afternoon, ☺

I would like to request the police report (and copy of written or electronic (b) (6) notes, if applicable), for an incident which occurred on (b) (6)

Note: Photos are not necessary unless an image of a (b) (6) note. The incident qualifies for our program, the Idaho Violent Death Reporting System (IdVDRS). ☐

The IdVDRS program was established in 2019 by the Idaho Bureau of Vital Records and Health Statistics within the Idaho Department of Health and Welfare, with funding from the Centers for Disease Control and Prevention. IdVDRS collects data on all violent deaths which occur annually in the state of Idaho for use in planning and evaluating policies aimed at preventing injuries and fatalities. Likewise, IdVDRS coordinates, collects and analyzes data from three primary sources: the death certificate; the coroner's report; and law enforcement reports. Combining information on a violent death from these three sources helps build a comprehensive picture of the circumstances in a decedent's life which have led to or contributed to their violent death. By collecting comprehensive data on violent deaths, IdVDRS helps our prevention partners create targeted, evidence-based prevention strategies to help reduce the burden of violent deaths in Idaho. ☐

Any records sent to us are used solely for aggregated data use. No personal information is included in any data at any time. Here is a link to our IdVDRS Dashboard, which is the primary way we disseminate our data: <https://www.gethealthy.dhw.idaho.gov/idaho-vdrs>. We have recently expanded the scope of this. BIA Police officer was first on scene. My vehicle's ride feels much more bumpy after this incident, in which a civilian towed me out of the ditch, and may need to make repairs (already have information that the vehicle's alignment is abnormal). I might file a claim as a result. I am respectfully requesting any records held by BIA / DOI in this matter. I am an off duty first responder. My vehicle was a (b) (6)
