DOI-2026-006303	05/18/2026 05/18/2026		<p>Hello,</p> <p>I am requesting all documents on my family history regarding our Puyallup Tribe Ancestry between the dates of 1850 - 2007.</p> <p>I am putting in this request to help obtain my son's Puyallup Tribal descendant letter. In the past I myself, my sisters, my dad and my grandpa all went to the Everett, WA BIA office and received our descendant letters, but after calling their office and also driving to their office they stated they no longer provide those letters and that I would need to reach out to our local tribe for my sons descendant letter. The Everett office also stated that they do not have any of our family records on file and to reach out to the tribe for them. After contacting the Puyallup Tribes enrollment office, they stated that they do not have any of our family records and that they have not provided descendant letters in years. My request for my son's descendant letter has gone to council since they do not provide those. So, I am hoping to get all and any records related to our family name / history since the Puyallup Tribe is stating they do not have any of our family history recorded and the Everett BIA office is also stating that they do not have any of our family records even though that is where we went originally for our descendant letters.</p> <p>One of my family members was able to provide a breakdown of our family tree that has all family names related to our full-blooded tribal ancestor. I also included my descendant letter (b) (6) and my letter and my (b) (6) letter. These documents and list of family members was also provided to the Puyallup Tribe for the determination at Council (they stated that the PDF of family names was not acceptable since it's just a written document, so this is why I was hoping to get all family history this way). The tribe could not provide me a date as to when my request is going to council, but I am requesting these records to provide our family history to the Puyallup Tribe in the hope I request to obtain my son's blood degree descendant letter.</p> <p>Thank you,</p>	Assigned
