CONTACT GUIDE FOR MORTGAGE LENDING IN INDIAN COUNTRY

This guide is prepared for the specific purpose of supporting the lending process in Indian Country. Mortgage production proceeds in four phases: origination, processing, underwriting and closing. However, before the application process begins lending officers taking applications from prospective borrowers should use this guide to ensure the appropriate office of the Bureau of Indian Affairs (BIA) is involved and the correct processing codes are included on all mortgage applications and in all phases of the process. Using this guide will expedite the lending process in Indian Country.

HOW TO USE THIS GUIDE

The guide contains four sections. The first section provides a flow diagram that illustrates how documents are processed between BIA, Tribe and lending programs. The other three sections assist the user in locating the point of contact, identifying the location and obtaining the address and main telephone number of a BIA office by Region or Agency. This will then allow the user to secure the correct Agency Code for land which is the subject of the mortgage application.

All mortgage applications are processed by the BIA, Real Estate Service Office located at the Agency or Regional office. Each BIA Region service specific land areas and are distinguished by a special code. Ensuring that the correct land area code is on the application and that the correct Real Estate Services Office is involved will expedite the processing of the loan package through all phases of the loan.

All contact with the BIA by lenders should be through the BIA Agency Real Estate Services Office and not the BIA Land Titles and Records Office (LTRO) for

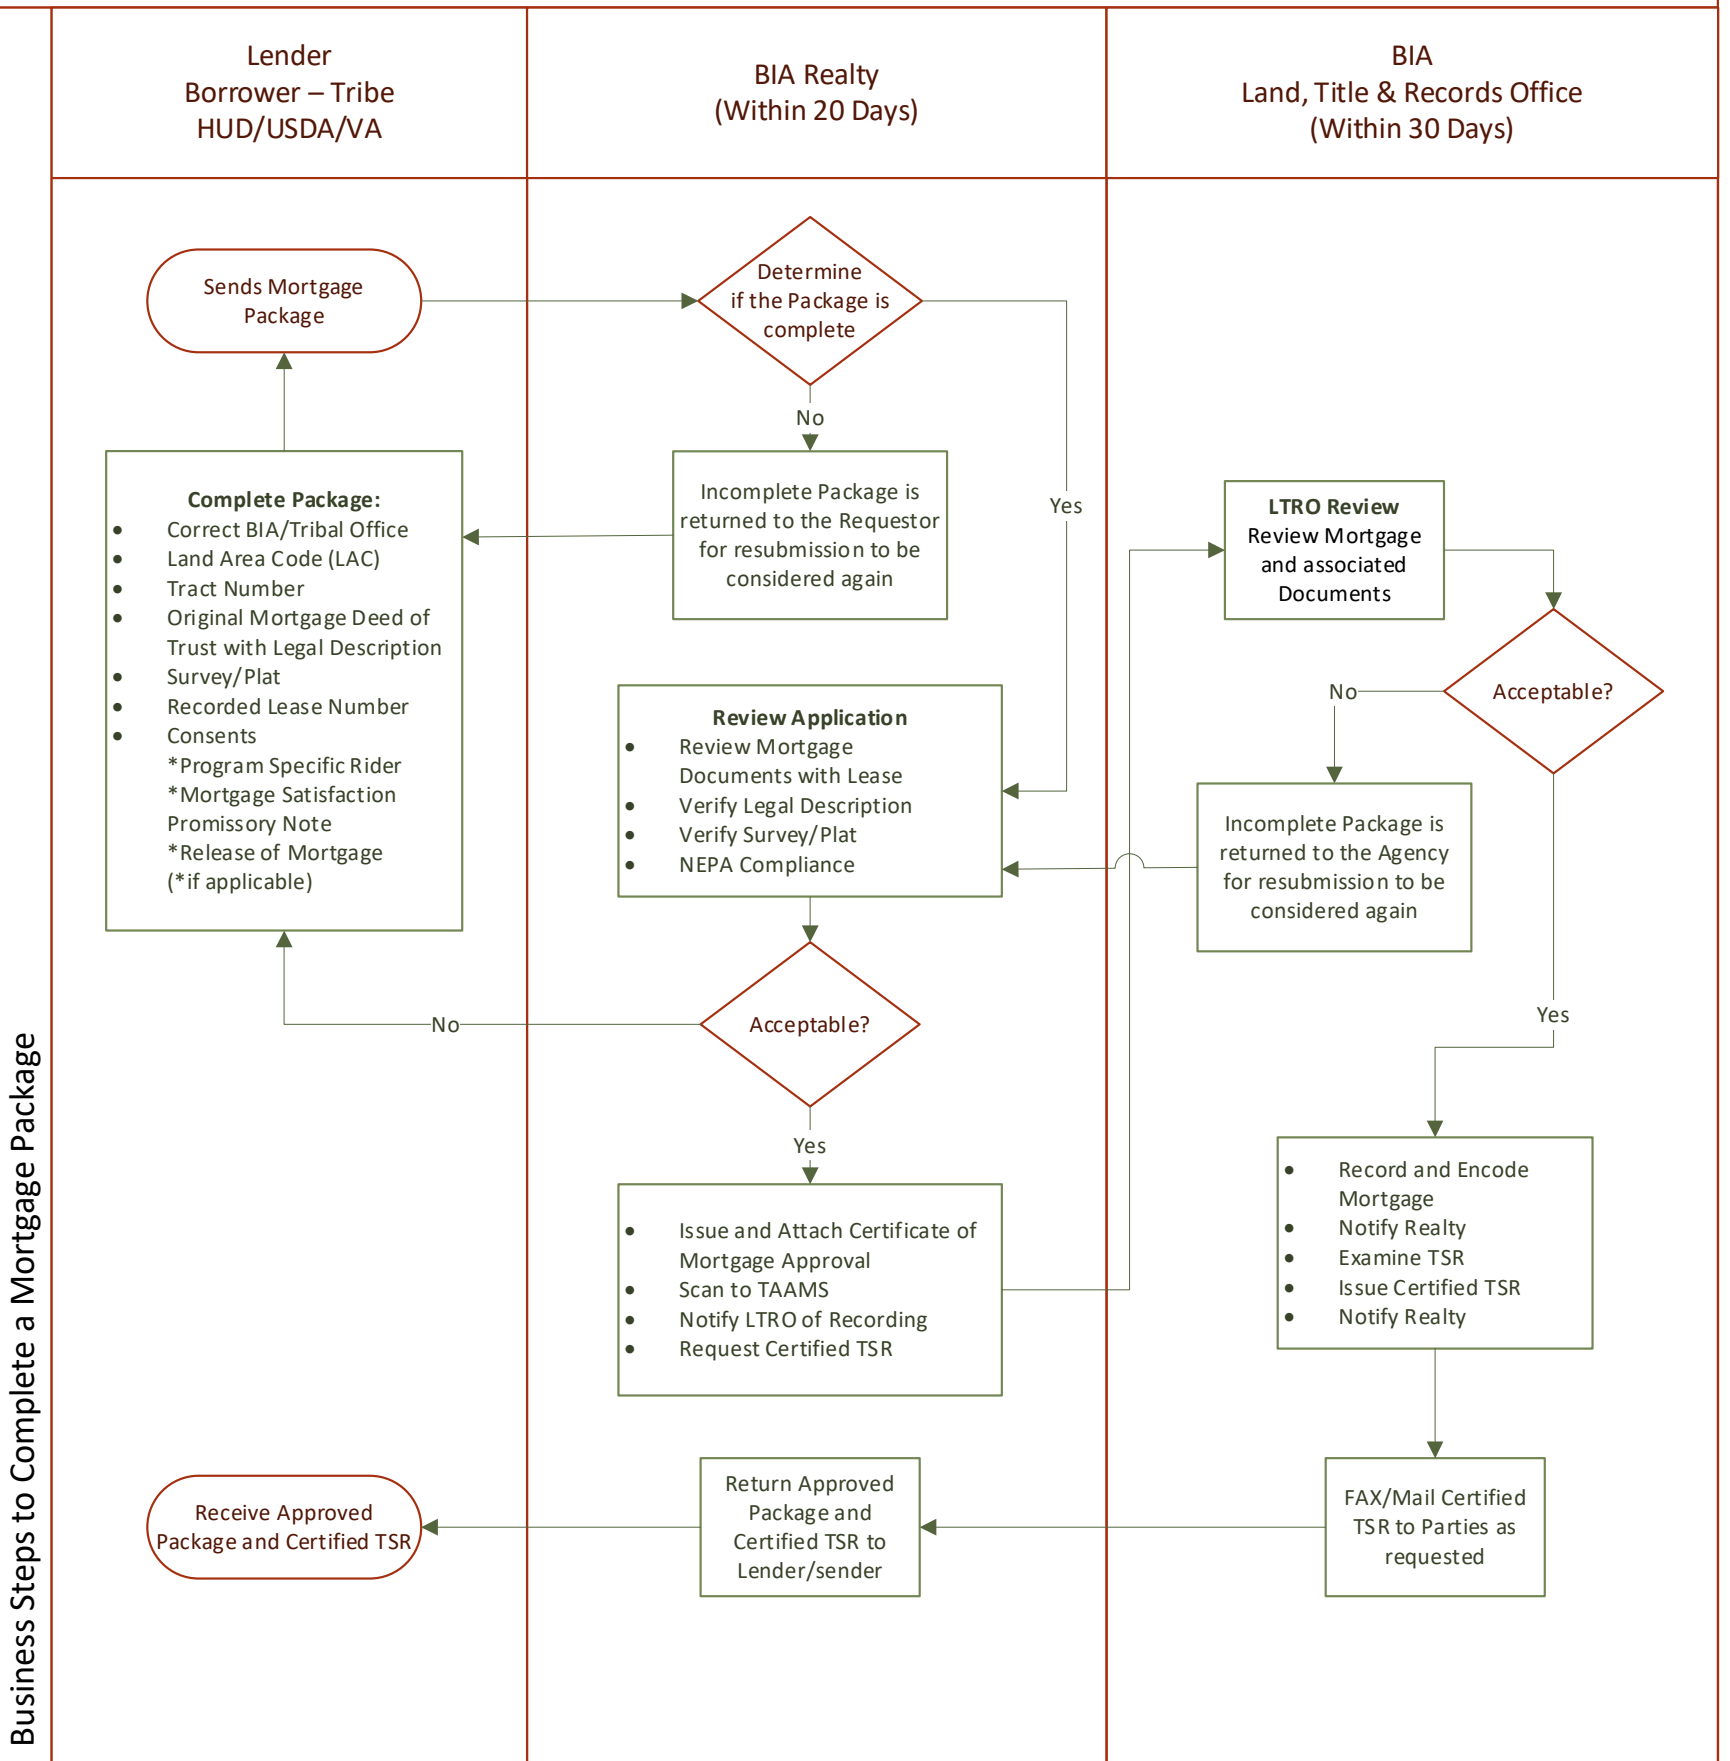

requesting certified Title Status Reports (TSR) and recording of mortgage documents.

While the BIA LTRO maintains title records on all real property held in trust or restricted status for a tribe or individual, the local BIA agency office, or in some cases a Tribal office, is the initial point of contact when lenders are submitting a request for recording or a certified TSR.

Sections:

1. INTER-AGENCY FLOWCHART
 - a. Business Process Diagram
2. Map of BIA Regions and Agency locations
3. BIA Regional and Agency Contact List
4. BIA Region, Agency and Land Area Code List

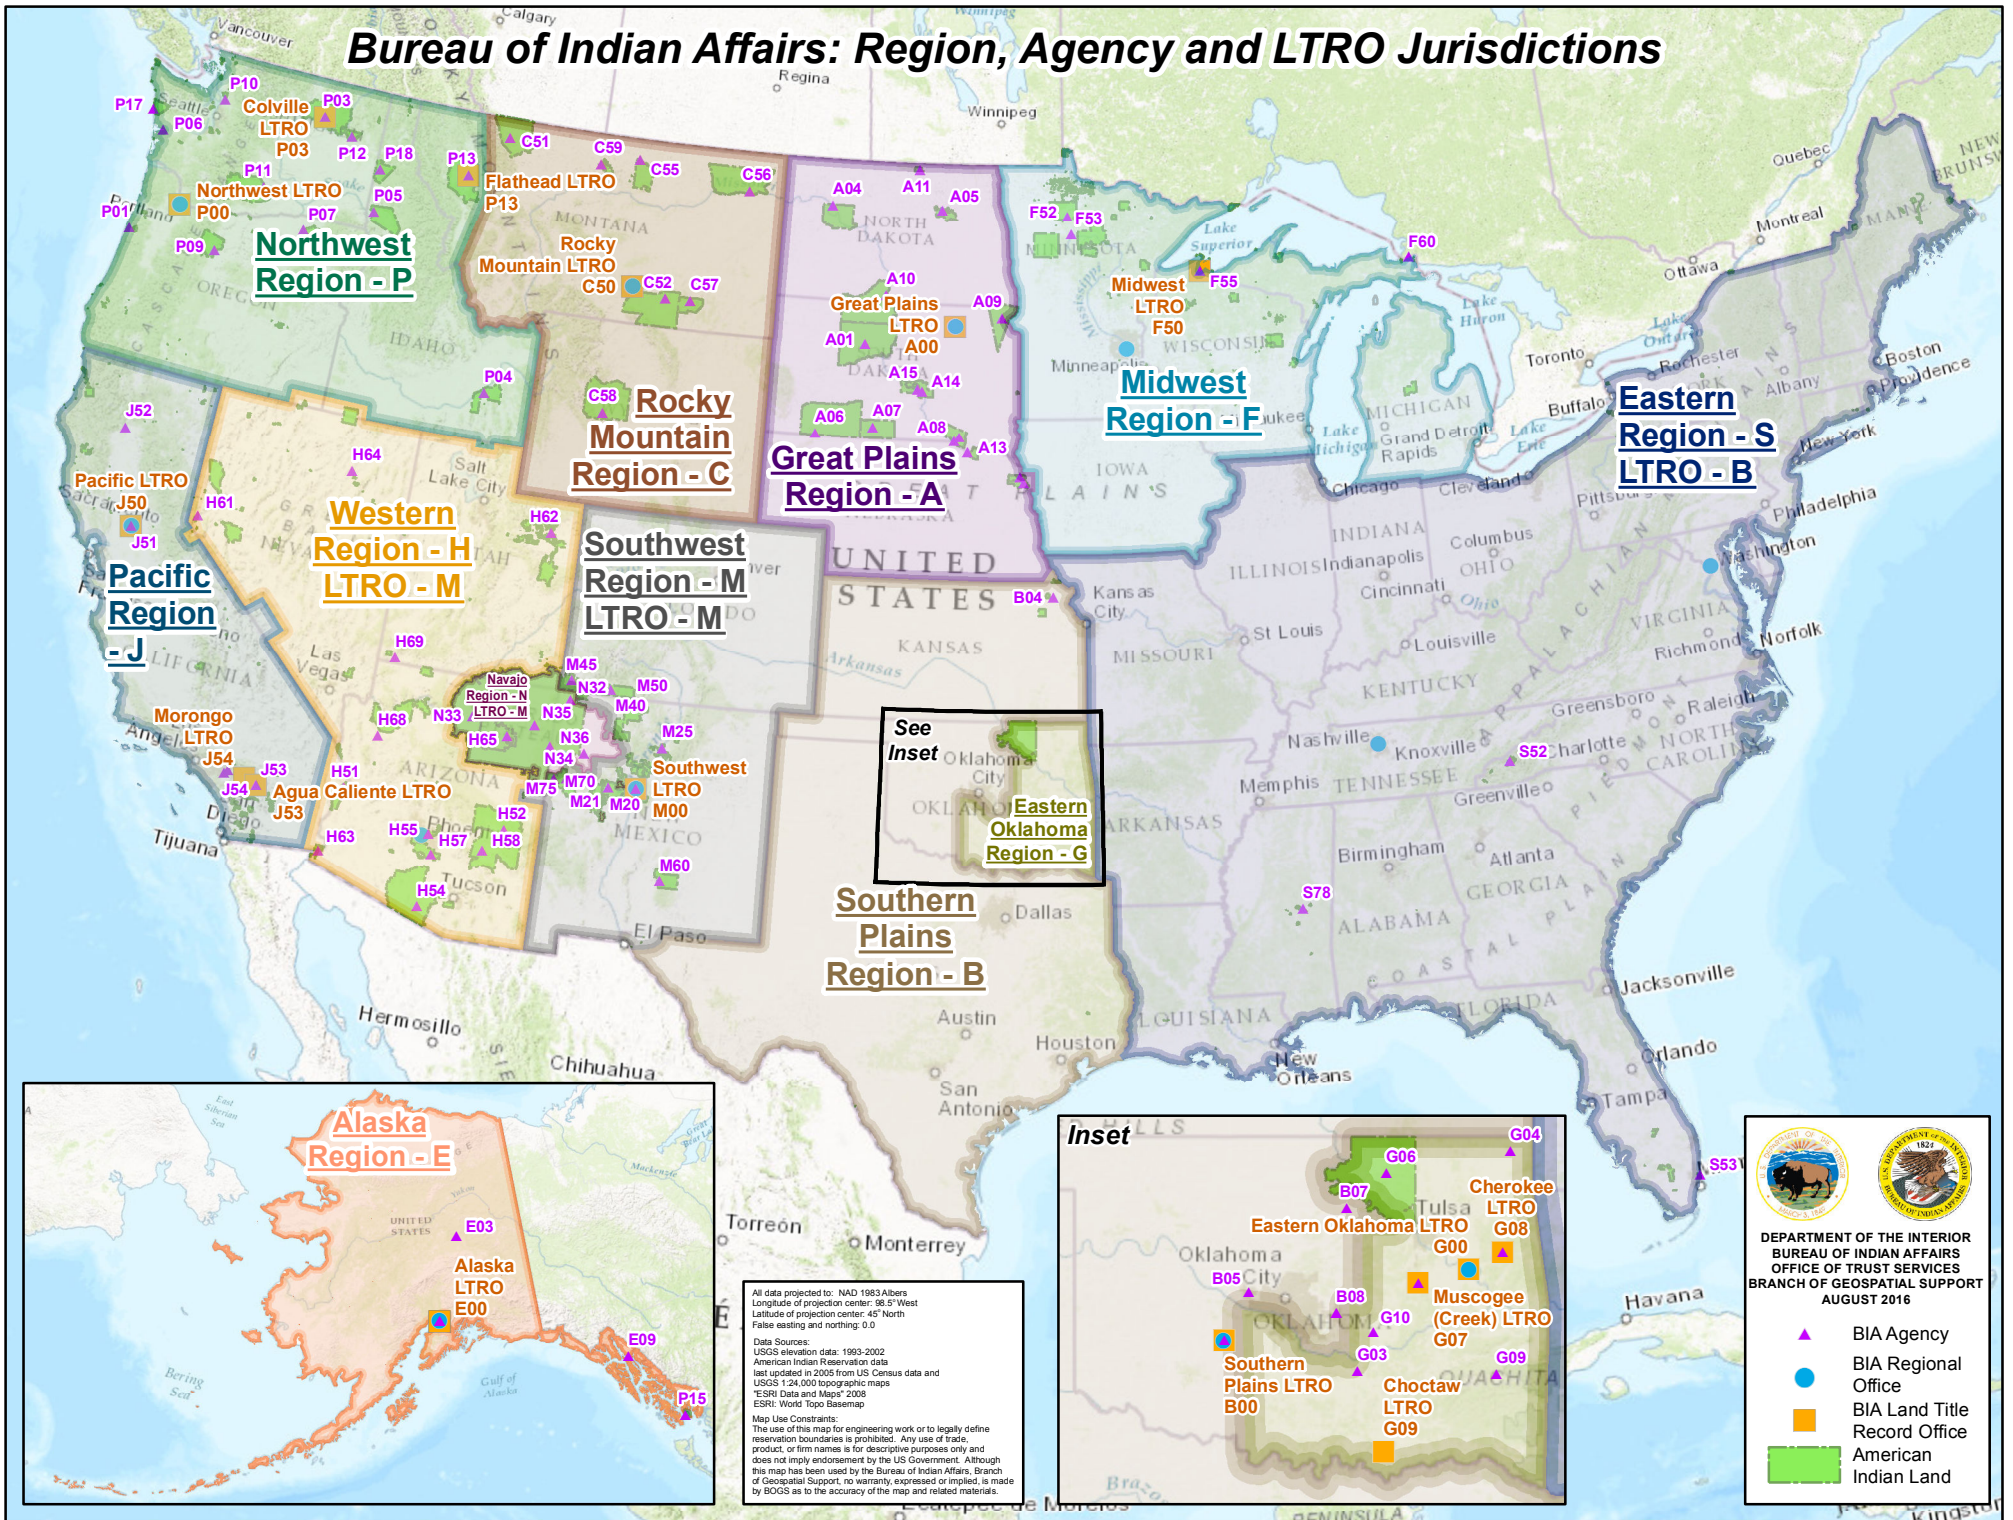

Inter-Agency Mortgage Flow chart

Use BIA Contact Guide.
 The guide contains sections which allow the user to locate the name, identify the location and obtain the address and main telephone number of a Bureau of Indian Affairs (BIA) Real Estate Services Office by Region or Agency. This will then allow the user to secure the Land Area Code (LAC) for land which is the subject of the mortgage package. All mortgage packages must contain the correct Land Area Code.

NOTE: If a leasehold mortgage approval is being requested, the Guide will also provide information to assist the Borrower/Lender/ Agency in working directly with the tribe for a mortgage approval (as in the case with tribes that have leasing regulations approved under the HEARTH Act).
