Blanket Purchase Agreement 140D0419A0017

ESRI® ArcGIS Pro

ArcGIS Pro Licenses

The ArcGIS Pro licensing option available through the ELA Program is NAMED_USER. The ArcGIS Pro license is assigned to individual users within an **ArcGIS Organizational account**. The three options to obtain ArcGIS Pro licensing are listed below.

1. Tribal organizations with an active Enterprise License Agreement (ELA) account may elect to deploy ArcGIS Enterprise with licensing provided at no-cost to the tribe through the ELA. Deploying ArcGIS Enterprise requires technical expertise to implement and administer, as well as hardware/cloud services.
 - a. <https://doc.esri.com/en/arcgis-enterprise/latest/plan/base-arcgis-enterprise-deployment.html?pivots=os-windows>
2. Tribal organizations with an active ELA account may elect to procure ArcGIS Online from ESRI through the ELA. Contract. Please contact geospatial@bia.gov for additional information.
3. Tribal organizations with an active ELA account may elect to obtain access to the **BIA ArcGIS Portal**.
 - a. Note: Access to the **BIA ArcGIS Portal** provides access to ArcGIS Pro licensing and select data only.

ESRI® ArcGIS Enterprise Products

ArcGIS Enterprise Licenses

The four components of ArcGIS Enterprise are ArcGIS Server, Portal for ArcGIS, ArcGIS Data Store and ArcGIS Web Adapter. ArcGIS Server and Portal for ArcGIS require separate licenses and must be requested separately. Data Store and Web Adapter can be installed without a separate license. For more information on ArcGIS Enterprise visit:

Portal for ArcGIS

Part No. **Product Description** (descriptions of these products can be found at www.esri.com)

POR001 **Portal for ArcGIS**

Portal for ArcGIS software requires Enterprise Server Advanced. There are two types of Portal seats available. You may have all of one seat type or a combination of both. Please indicate on your software order form which type(s) and the number of Portal seats you are requesting.

Viewer— Viewers can view items that are shared with them by other ArcGIS users and have access to a selection of apps. This user type is ideal for members of an organization who need to view ArcGIS content in a secure environment. Viewers cannot create, edit, share, or perform analysis on items or data.

Creator— Creators can create and edit content such as maps and apps, perform in-depth spatial analysis using the analysis tools in the portal, collect data, and collaborate and share content for use in apps. They can also create 2D and 3D maps and interactive visualizations using ArcGIS Pro Basic. Creators have access to a selection of apps, and they can view content created by other organization members and administer users and content in the organization. The Creator user type is recommended for GIS specialists, asset managers, data journalists, and other content creators and collaborators.

Note: Professional Plus, Contributor and Mobile work user types will be issued in limited quantities determined by the ELA Administrator.

Global Enhanced GEOINT Delivery Pro (GEGD Pro)

Global Enhanced GEOINT Delivery Pro (GEGD Pro)

Access to high-resolution imagery, data and analysis. For more information, go to <https://storymaps.arcgis.com/stories/8e756fbaf0c0461c8387f09b17f3982c>

Please contact the Geospatial Support Help Desk at geospatial@bia.gov to request access.

Products Limited Under the ELA

ArcGIS Online (AGOL) BIA Access

New users are encouraged to contact their Regional Geospatial Coordinator (RGC) to obtain access to the **BIA ArcGIS Portal**

Approved BIA staff may use AGOL and all its capabilities. You must assure that data stored or used in AGOL are at the FISMA "low" level (no personally identifiable information, no licensed or otherwise protected or sensitive data, etc.). The BIA Organizational Account sits on the ESRI cloud via Amazon. Due to the issues of FISMA compliance and data sitting on a cloud service outside of the BIA's trust network, only data that is currently available publicly will be allowed to be hosted on the account. Trust data, PII and anything that is sensitive in nature according to the BIA will not be hosted on AGOL and will not be posted by the users within the organization. Please contact the Geospatial Support Help Desk at 1-405-230-0480 or at geospatial@bia.gov.

Products Not Available Under the ELA

ArcGIS Online (AGOL) Tribal Access

1. Individuals may be able to gain access to ArcGIS Online (AGOL) through the National Tribal Geographic Information Support Center (NTGISC) also known as Tribal GIS®. AGOL access is available to members of NTGISC, membership is available at no cost for Tribal employees. This access is made possible through NTGISC's independent ELA and agreements with Esri. AGOL accounts obtained through NTGISC will be slightly limited in comparison to full ArcGIS Online subscriptions per the terms set forth by NTGISC & Esri. Please contact NTGISC at www.tribalgis.com 918-937-4487, or email gcouch@tribalgis.com for more information.
2. An ArcGIS Public Account with limited AGOL usage and capabilities is available for free through ESRI. With a free public account from ESRI, you can create, store and manage maps, scenes, layers, and apps, and share them with others. Please go to <https://www.arcgis.com/home/signin.html> to create a public account.
3. If you require full capabilities of ArcGIS Online and would like to purchase your own AGOL organization license/subscription, please contact Federal_Sales@esri.com. Please mention you are part of the Enterprise License Agreement with the BIA.
